If you are investing through an IRA or other tax-deferred account, special rules apply

Please consult your tax advisor for more detailed information about a fund's tax consequences for you. Past distributions and performance are no guarantee of future distributions or results.

¹ Distributions of Net Investment Income and Short-Term Capital Gains do not qualify for a reduced tax rate because the source of income is interest.

² The American Jobs Creation Act of 2004 provides that the qualified portion of a regulated investment company dividend that is either an interest related dividend or short-term capital gain dividend will not be subject to U.S. tax withholding for non-resident aliens and foreign corporations. This provision is in effect for dividends related to tax years beginning after December 31, 2004, and before January 1, 2008. Accordingly, 30.14% of income dividends paid during the year represent qualified interest-related dividends and 100% represents qualified short term capital gain.
