<sup>2</sup> Percentage of dividends paid from Net Investment Income and Short-Term Capital Gains that is Qualified Dividend Income ("QDI") is 77.42%.

<sup>3</sup> The American Jobs Creation Act of 2004 provides that the qualified portion of a regulated investment company dividend that is either an interest related dividend or short-term capital gain dividend will not be subject to U.S. tax withholding for non-resident aliens and foreign corporations. This provision is in effect for dividends related to tax years beginning after December 31, 2004, and before January 1, 2008. Accordingly, 100% of income dividends paid during the year represent qualified interest-related dividends and 0% represents qualified short term capital gain.
