

INVESTMENT STRATEGY

The VA US Large Value Portfolio is a no-load mutual fund designed to capture the returns and diversification benefits of a broad cross-section of US large value companies on a market-cap weighted basis. The Portfolio invests in securities of US companies with market capitalizations within the largest 90% of the market universe or larger than the 1,000th largest US company, whichever results in a higher market capitalization break. The market universe is comprised primarily of companies listed on the New York Stock Exchange, American Stock Exchange, and Nasdaq Global Market. After identifying the aggregate market capitalization break, a value screen is applied to the universe. Securities are considered value stocks primarily because a company's shares have a high book value in relation to their market value (BtM). This BtM sort excludes firms with negative or zero book values. In assessing value, additional factors such as price-to-cash-flow or price-to-earnings ratios may be considered. The criteria for assessing value are subject to change from time to time.

PRINCIPAL RISKS

The principal risk associated with this investment is market risk. These risks are described in the Principal Risks section of the prospectus, available at dimensional.com.

FUND COSTS

| | |
|---------------------------------|-------|
| Management Fee | 0.25% |
| Total Operating Expense Ratio | 0.29% |
| Net Expense Ratio (to investor) | 0.29% |

Annual expense ratio as of 10/31/2011. The fund's prospectus contains more complete information on risks, advisory fees, expense reimbursements, and other expenses.

AVERAGE ANNUAL TOTAL RETURNS (%)

Performance data represents past performance and is no guarantee of future results. Current performance may be higher or lower than the performance displayed. The investment return and principal value will fluctuate so that an investment's shares, when redeemed, may be worth more or less than their original cost. Visit Dimensional.com for month-end performance information.

GROWTH OF \$100,000

BEST/WORST RETURNS

| Since Fund Inception | Best | Worst |
|--------------------------------------|------------------------|-------------------------|
| Three-Month Total Return | 38.05% (3/09-5/09) | -35.53% (9/08-11/08) |
| One-Year Total Return | 76.21% (3/09-2/10) | -51.60% (3/08-2/09) |
| Three-Year Annualized Average Return | 30.79% (3/09-2/12) | -20.48% (3/06-2/09) |
| Five-Year Annualized Average Return | 18.27% (10/02-9/07) | -8.31% (3/04-2/09) |

VA US Large Value Portfolio

ABOUT DIMENSIONAL

In 1981, Dimensional launched its first strategy based on research documenting the stronger performance of US small cap stocks. Our second strategy, a short-term fixed income portfolio launched in 1983, applies Eugene Fama's term structure research. Later, a comprehensive analysis of prices and other research deepened our strategy repertoire and set a new standard for portfolio design.

PHILOSOPHY

At Dimensional, we see markets as an ally, not an adversary. We believe competition quickly drives stock prices to fair value and that persistent differences in average portfolio returns are explained by differences in average risk. Rather than trying to take advantage of the ways markets are mistaken, we take advantage of the ways markets are right—the ways they compensate investors. Our mission is to deliver the performance of capital markets and increase returns through state-of-the-art portfolio design and trading.
