

DIMENSIONAL INVESTMENT GROUP INC.

U.S. Large Company Portfolio
(formerly, the U.S. Large Company Institutional Index Portfolio)

SUPPLEMENT TO PROSPECTUS
DATED FEBRUARY 28, 2010

This Supplement describes certain technical changes to your investment in the U.S. Large Company Portfolio. These changes will not affect the value of your investment.

On September 10, 2010, the U.S. Large Company Portfolio (the “Portfolio”) of Dimensional Investment Group Inc. simplified its operations by discontinuing the master-feeder structure and no longer investing substantially all of the Portfolio’s assets in The U.S. Large Company Series (the “Master Fund”) of The DFA Investment Trust Company. Instead, the Portfolio now purchases portfolio securities directly. The Portfolio has acquired the portfolio securities previously held by the Master Fund.

As a consequence of these changes, the following revisions are made to the Prospectus:

- (i) All references in the Prospectus to the Portfolio being a “Feeder Portfolio” that utilizes the master-feeder structure are deleted, and, generally, all references to the “DFA Investment Trust Company,” the “Trust,” “The U.S. Large Company Series,” the “U.S. Large Company Series,” “master fund,” and “Master Fund,” in the context of the Portfolio, are deleted. In addition, references to “The U.S. Large Company Series” or “U.S. Large Company Series,” “Master Fund,” and “Board of Trustees of the Trust” are replaced with the “U.S. Large Company Portfolio,” “Portfolio,” and “Board of Directors of the Fund,” respectively.
- (ii) The second sentence in the paragraph under the heading “**INVESTMENT OBJECTIVE**” on page 1 of the Prospectus is deleted.
- (iii) The information in footnote “*” under the heading “**FEES AND EXPENSES OF THE PORTFOLIO**” on page 1 of the Prospectus is deleted and replaced as follows:
 - * The information in the table reflects the fees and expenses of the U.S. Large Company Portfolio when it operated in a master-feeder structure. Effective September 10, 2010, the Portfolio changed its investment structure to a stand-alone investment structure. The fees and expenses of the Portfolio would not have exceeded those disclosed in the table if the stand-alone investment structure had been utilized for the fiscal period ended October 31, 2009.
- (iv) The sentence after “1 Year, 3 Years, 5 Years and 10 Years” under the heading “**FEES AND EXPENSES OF THE PORTFOLIO**” on page 1 of the Prospectus is deleted.
- (v) The second paragraph under the heading “**ADDITIONAL INFORMATION ON INVESTMENT OBJECTIVE AND POLICIES**” on page 5 of the Prospectus is deleted and replaced as follows:

U.S. Large Company Portfolio seeks, as its investment objective, to approximate the total investment return of the S&P 500[®] Index. The U.S. Large Company Portfolio intends to invest in all of the stocks that comprise the S&P 500[®] Index in approximately the proportions they are represented in the S&P 500[®] Index.

- (vi) The sub-section “**Portfolio Reorganization**” on page 6 of the Prospectus is deleted and replaced as follows:

On May 8, 2010, the U.S. Large Company Portfolio, a portfolio of DFA Investment Dimensions Group Inc., pursuant to an Agreement and Plan of Reorganization, was reorganized with and into the Portfolio (formerly, the U.S. Large Company Institutional Index Portfolio).

- (vii) The sixth and seventh sentences of the second paragraph under the heading “**SECURITIES LOANS**” on pages 6-7 of the Prospectus are deleted.
- (viii) The information in footnote “*” under the heading “**SECURITIES LENDING REVENUE**” on page 7 of the Prospectus is deleted and replaced with the following:

Prior to September 10, 2010, the U.S. Large Company Portfolio operated as a Feeder Portfolio in a master-feeder structure. The U.S. Large Company Portfolio invested substantially all of its assets in The U.S. Large Company Series prior to September 10, 2010. For the U.S. Large Company Portfolio, the “Net Revenue” reflects the total securities lending revenue generated by the Portfolio and the proportional share of the securities lending revenue generated by The U.S. Large Company Series that was received by the Portfolio.

- (ix) The first paragraph under the heading “**MANAGEMENT OF THE PORTFOLIO**” on page 7 of the Prospectus is deleted and replaced with the following:

The Advisor serves as investment advisor to the Portfolio. Pursuant to an Investment Advisory Agreement with the Portfolio, the Advisor is responsible for the management of the Portfolio’s assets. The Portfolio is managed using a team approach. The investment team includes the Investment Committee of the Advisor, portfolio managers and trading personnel.

- (x) The first sentence under the fifth full paragraph on page 8 of the Prospectus is deleted and replaced with the following:

A discussion regarding the basis for the Board of Directors approving the investment management agreement with respect to the Portfolio will be available in future annual or semi-annual reports for the Portfolio.

- (xi) The paragraph under the sub-heading “**Management Fees**” on page 8 of the Prospectus is deleted and replaced with the following:

The “**Annual Fund Operating Expenses**” table describes the fees incurred by the Portfolio for the services provided by the Advisor for the fiscal year ended October 31, 2009. The “Management Fee” listed in the table for the Portfolio reflects the investment advisory fee that was payable by the U.S. Large Company Portfolio to the Advisor when it operated in a master-feeder structure. Effective September 10, 2010, the Portfolio changed its investment structure to a stand-alone structure, which invests directly in portfolio securities.

- (xii) The parenthetical “(including the expenses the Portfolio bears as a shareholder of the Master Fund)” under the sub-heading “**Fee Waiver and Expense Assumption Agreement**” on page 8 of the Prospectus is deleted.

- (xiii) Under the heading “**DIVIDENDS, CAPITAL GAINS DISTRIBUTIONS AND TAXES**” on pages 9-10 of the Prospectus:

- a) the last sentence in the paragraph titled “*Tax Considerations*” at the bottom of page 9 is deleted.
- b) the third paragraph on page 10 of the Prospectus is deleted.
- (xiv) The first sentence under the sub-heading “**In-Kind Redemptions**” on page 17 of the Prospectus is deleted and replaced with the following:

When in the best interests of the Portfolio, the Portfolio may make a redemption payment, in whole or in part, by a distribution of portfolio securities in lieu of cash.
- (xv) The information under the heading “**THE FEEDER PORTFOLIO**” on page 17 of the Prospectus is deleted.

The date of this Supplement is September 10, 2010.

DIMENSIONAL INVESTMENT GROUP INC.

U.S. Large Company Portfolio
(formerly, the U.S. Large Company Institutional Index Portfolio)

SUPPLEMENT TO PROSPECTUS
DATED FEBRUARY 28, 2010

This Supplement describes certain technical changes to your investment in the U.S. Large Company Portfolio. These changes will not affect the value of your investment.

On September 10, 2010 (the “Effective Date”), the U.S. Large Company Portfolio (the “Portfolio”) of Dimensional Investment Group Inc. (“DIG”) will simplify its structure by no longer investing all of its assets in The U.S. Large Company Series (the “Master Fund”) of The DFA Investment Trust Company (the “Trust”) in a master-feeder structure. Instead, the Portfolio will begin purchasing portfolio securities directly. The Portfolio will have the same investment objective and strategy as the Master Fund it previously invested in and therefore, the Portfolio will continue to be exposed to the same investments it previously was. As of the Effective Date, the Portfolio will acquire the portfolio securities then held by the Master Fund. It was determined that it is no longer necessary to have a master-feeder structure.

Prior to the Effective Date, DIG, on behalf of the Portfolio, will enter into an investment management agreement with Dimensional Fund Advisors LP (“Dimensional”) to manage the Portfolio’s assets, replacing the existing investment management agreement with respect to the Master Fund. The terms of DIG’s investment management agreement for the Portfolio with Dimensional (including the management fee) will be identical to the terms of the Trust’s investment management agreement with Dimensional relating to the Master Fund. The Portfolio’s annual operating expenses are expected to remain substantially the same following the Portfolio’s change from a master-feeder structure to a directly investing portfolio as the annual operating expenses would have been had the Portfolio remained as the sole feeder portfolio shareholder of the Master Fund.

Stephen A. Clark, the portfolio manager who coordinates the efforts of all other portfolio managers with respect to the Domestic Equity Portfolios, and who currently is the portfolio manager of the Master Fund, will be primarily responsible for the day-to-day management of the Portfolio after these changes.

The transaction itself is non-taxable to shareholders. In addition, it is anticipated that the change will not result in any change in the tax treatment of the Portfolio or the portfolio securities it acquires.

The date of this Supplement is June 29, 2010.

PROSPECTUS

U.S. Large Company Institutional Index Portfolio

(effective May 8, 2010, renamed U.S. Large Company Portfolio)

INVESTMENT OBJECTIVE

The U.S. Large Company Institutional Index Portfolio (effective May 8, 2010, renamed U.S. Large Company Portfolio) (the “U.S. Large Company Portfolio”) seeks, as its investment objective, to approximate the total investment return of the S&P 500® Index. The U.S. Large Company Portfolio is a Feeder Portfolio and pursues its objective by investing substantially all of its assets in its corresponding Master Fund, The U.S. Large Company Series (the “U.S. Large Company Series”) of The DFA Investment Trust Company (the “Trust”), which has the same investment objective and policies as the Portfolio.

FEES AND EXPENSES OF THE PORTFOLIO

This table describes the fees and expenses you may pay if you buy and hold shares of the U.S. Large Company Portfolio.

Shareholder Fees (fees paid directly from your investment): None

Annual Fund Operating Expenses* (expenses that you pay each year as a percentage of the value of your investment)

Management Fee	0.075%
Other Expenses	0.055%
Total Annual Fund Operating Expenses	0.13%
Fee Waiver and/or Expense Reimbursement or (Recovery)** ..	0.03%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement or (Recovery)	0.10%

* The “Management Fee” includes an investment management fee payable by the U.S. Large Company Series and an administration fee payable by the U.S. Large Company Portfolio. The amounts set forth under “Other Expenses” and “Total Annual Fund Operating Expenses” reflect the direct expenses of the U.S. Large Company Portfolio and the indirect expenses of the Portfolio’s portion of the expenses of the U.S. Large Company Series.

** The Advisor has agreed to waive all or a portion of its administration fee in certain circumstances. The Fee Waiver and Expense Assumption Agreement for the U.S. Large Company Portfolio will remain in effect through March 1, 2011, and may not be terminated by the Advisor prior to that date.

Example

This Example is meant to help you compare the cost of investing in the U.S. Large Company Portfolio with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Portfolio for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Portfolio’s operating expenses remain the same. The costs for the Portfolio reflect the net expenses of the Portfolio that result from the contractual expense waiver and assumption in the first year only. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$10	\$39	\$70	\$163

The Example reflects the aggregate estimated annual operating expenses of the U.S. Large Company Portfolio and the Portfolio’s portion of the expenses of the U.S. Large Company Series.

Portfolio Turnover

The U.S. Large Company Series pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Portfolio shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the U.S. Large Company Portfolio’s performance. During the most recent fiscal year, the U.S. Large Company Series’ portfolio turnover rate was 10% of the average value of its investment portfolio.

PRINCIPAL INVESTMENT STRATEGIES

Dimensional Fund Advisors LP (the “Advisor”) believes that equity investing should involve a long-term view and a systematic focus on sources of expected returns, not on stock picking or market timing. In constructing an investment portfolio, the Advisor identifies a broadly diversified universe of eligible securities with precisely-defined risk and return characteristics. It then places priority on efficiently managing portfolio turnover and keeping trading costs low. The Advisor does not intend to purchase or sell securities for the investment portfolio based on prospects for the economy, the securities markets or the individual issuers whose shares are eligible for purchase.

The U.S. Large Company Portfolio invests substantially all of its assets in the U.S. Large Company Series, which generally invests in the stocks that comprise the S&P 500[®] Index in approximately the proportions they are represented in the S&P 500[®] Index. The S&P 500[®] Index is comprised of a broad and diverse group of stocks. Generally, these are the U.S. stocks with the largest market capitalizations and, as a group, they represent approximately 75% of the total market capitalization of all publicly traded U.S. stocks. For the U.S. Large Company Series, the Advisor considers the stocks that comprise the S&P 500[®] Index to be those of large companies. Under normal market conditions, at least 95% of the U.S. Large Company Series’ net assets will be invested in the stocks that comprise the S&P 500[®] Index. As a non-fundamental policy, under normal circumstances, the U.S. Large Company Series will invest at least 80% of its net assets in securities of large U.S. companies.

Ordinarily, portfolio securities will not be sold except to reflect additions or deletions of the stocks that comprise the S&P 500[®] Index, including as a result of mergers, reorganizations and similar transactions and, to the extent necessary, to provide cash to pay redemptions of the U.S. Large Company Series’ shares. Given the impact on prices of securities affected by the reconstitution of the S&P 500[®] Index around the time of a reconstitution date, the U.S. Large Company Series may purchase or sell securities that may be impacted by the reconstitution before or after the reconstitution date of the S&P 500[®] Index.

The U.S. Large Company Portfolio and the U.S. Large Company Series each may use derivatives, such as futures contracts and options on futures contracts for U.S. equity securities and indices, to gain market exposure on their uninvested cash pending investment in securities or to maintain liquidity to pay redemptions.

The U.S. Large Company Series may lend its portfolio securities to generate additional income.

About the S&P 500[®] Index: The Standard & Poor’s 500 Composite Stock Price Index[®] is market capitalization weighted (adjusted for free float). Its performance is usually cyclical because it reflects periods when stock prices generally rise or fall. For information concerning Standard & Poor’s Rating Group, a division of The McGraw Hill Companies (“S&P”), and disclaimers of S&P with respect to the U.S. Large Company Portfolio and the U.S. Large Company Series, see “**Standard & Poor’s-Information and Disclaimers.**”

PRINCIPAL RISKS

Market Risk: Even a long-term investment approach cannot guarantee a profit. Economic, political, and issuer-specific events will cause the value of securities, and the U.S. Large Company Series that owns them, and, in turn, the U.S. Large Company Portfolio itself, to rise or fall. Because the value of your investment in the Portfolio will fluctuate, there is the risk that you will lose money.

Derivatives: Derivatives are securities, such as futures contracts, whose value is derived from that of other securities or indices. The use of derivatives for non-hedging purposes may be considered more speculative than other types of investments. When the U.S. Large Company Series and the U.S. Large Company Portfolio use derivatives, the U.S. Large Company Portfolio will be directly exposed to the risks of that derivative. Derivative securities are subject to a number of risks including liquidity, interest rate, market, credit and management risks, and the risk of improper valuation. Changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index, and the Portfolio could lose more than the principal amount invested.

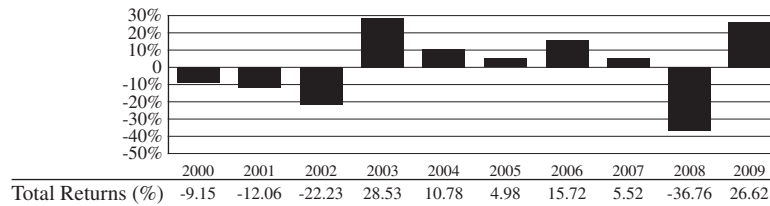

Securities Lending: Securities lending involves the risk that the borrower may fail to return the securities in a timely manner or at all. As a result, the U.S. Large Company Series may lose money and there may be a delay in recovering the loaned securities. The U.S. Large Company Series could also lose money if it does not recover the securities and/or the value of the collateral falls, including the value of investments made with cash collateral. Securities lending also may have certain potential adverse tax consequences.

PERFORMANCE

The bar chart and table immediately following illustrate the variability of the U.S. Large Company Portfolio's returns and are meant to provide some indication of the risks of investing in the Portfolio. The bar chart shows the changes in the Portfolio's performance from year to year. The table illustrates how annualized one year, five year and ten year returns, both before and after taxes, compare with those of a broad measure of market performance. The U.S. Large Company Portfolio's past performance (before and after taxes) is not an indication of future results. Updated performance information for the Portfolio can be obtained by visiting www.dimensional.com.

The after-tax returns presented in the table for the U.S. Large Company Portfolio are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown in the table. In addition, the after-tax returns shown are not relevant to investors who hold shares of the Portfolio through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. A negative pre-tax total return translates into a higher after-tax return because this calculation assumes that an investor received a tax deduction for the loss incurred on the sale.

INVESTMENT ADVISOR/PORTFOLIO MANAGEMENT

Dimensional Fund Advisors LP serves as the investment advisor for the U.S. Large Company Portfolio and the U.S. Large Company Series. Stephen A. Clark, Senior Portfolio Manager and Vice President of the Advisor, is responsible for coordinating the day to day management of the U.S. Large Company Portfolio and the U.S. Large Company Series and has been a portfolio manager since 2001.

PURCHASE AND REDEMPTION OF FUND SHARES

Investors may purchase or redeem shares of the U.S. Large Company Portfolio on any business day by first contacting the Advisor at (888) 576-1167 or (512) 306-7400 to notify the Advisor of the proposed investment or redemption. Shareholders that invest in the U.S. Large Company Portfolio through a financial intermediary should contact their financial intermediary regarding purchase and redemption procedures. The Portfolio generally is available for investment only by institutional clients, clients of registered investment advisors, clients of financial institutions and a limited number of certain other investors as approved from time to time by the Advisor. All investments are subject to approval of the Advisor.

TAX INFORMATION

The dividends and distributions you receive from the U.S. Large Company Portfolio are taxable and will generally be taxed as ordinary income, capital gains, or some combination of both, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account.

ADDITIONAL INFORMATION ON INVESTMENT OBJECTIVE AND POLICIES

The investment company described in this Prospectus offers a variety of investment portfolios. Each of the investment company's Portfolios has its own investment objective and policies, and is the equivalent of a separate mutual fund. The Portfolio is designed for long-term investors.

U.S. Large Company Portfolio seeks, as its investment objective, to approximate the total investment return of the S&P 500[®] Index. The U.S. Large Company Portfolio is a "Feeder Portfolio," which is a portfolio that does not generally buy individual securities directly. Instead, it invests in a corresponding fund, or "Master Fund," that in turn purchases stocks and other securities. The U.S. Large Company Portfolio is a Feeder Portfolio and pursues its objective by investing substantially all of its assets in its corresponding Master Fund, The U.S. Large Company Series (the "U.S. Large Company Series") of The DFA Investment Trust Company (the "Trust"), which has the same investment objective and policies as the Portfolio. The U.S. Large Company Series intends to invest in all of the stocks that comprise the S&P 500[®] Index in approximately the proportions they are represented in the S&P 500[®] Index.

Ordinarily, portfolio securities will not be sold except to reflect additions or deletions of the stocks that comprise the S&P 500[®] Index, including as a result of mergers, reorganizations and similar transactions and, to the extent necessary, to provide cash to pay redemptions of the U.S. Large Company Series' shares.

The U.S. Large Company Series may invest in exchange-traded funds (ETFs) and similarly structured pooled investments for the purpose of gaining exposure to the U.S. stock market while maintaining liquidity. In addition to money market instruments and other short-term investments, the U.S. Large Company Series may invest in affiliated and unaffiliated registered and unregistered money market funds to manage cash pending investment in other securities or to maintain liquidity for the payment of redemptions or other purposes. Investments in money market funds may involve a duplication of certain fees and expenses.

Standard & Poor's—Information and Disclaimers

Neither the Portfolio nor the Master Fund is sponsored, endorsed, sold or promoted by Standard & Poor's Rating Group, a Division of The McGraw Hill Companies ("S&P"). S&P makes no representation or warranty, express or implied, to the owners of the Portfolio or the Master Fund or any member of the public regarding the advisability of investing in securities generally or in the Portfolio or the Master Fund particularly or the ability of the S&P 500[®] Index to track general stock market performance. S&P's only relationship to the Portfolio or the Master Fund is the licensing of certain trademarks and trade names of S&P and of the S&P 500[®] Index which is determined, composed and calculated by S&P without regard to the Portfolio or the Master Fund. S&P has no obligation to take the needs of the Portfolio, the Master Fund or their respective owners into consideration in determining, composing or calculating the S&P 500[®] Index. S&P is not responsible for and has not participated in the determination of the prices and amount of the Portfolio or the Master Fund or the issuance or sale of the Portfolio or the Master Fund or in the determination or calculation of the equation by which the Portfolio or the Master Fund is to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the Portfolio or the Master Fund.

S&P DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPLETENESS OF THE S&P 500[®] INDEX OR ANY DATA INCLUDED THEREIN AND S&P SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. S&P MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY LICENSEE, OWNERS OF THE PRODUCT, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE S&P 500[®] INDEX OR ANY DATA INCLUDED THEREIN. S&P MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE S&P 500[®] INDEX OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL S&P HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

Portfolio Transactions

Securities will not be purchased or sold based on the prospects for the economy, the securities markets or the individual issuers whose shares are eligible for purchase. Securities which have depreciated in value since their acquisition will not be sold solely because prospects for the issuer are not considered attractive or due to an expected or realized decline in securities prices in general. Securities will not be sold to realize short-term profits, but when circumstances warrant, they may be sold without regard to the length of time held.

Securities, including those eligible for purchase, may be disposed of, however, at any time when, in the Advisor's judgment, circumstances warrant their sale, including but not limited to tender offers, mergers and similar transactions, or bids made for block purchases at opportune prices. Generally, securities will be purchased with the expectation that they will be held for longer than one year and will be held until such time as they are no longer considered an appropriate holding in light of the investment policy of the Portfolio and Master Fund.

Other Information

Commodity Pool Operator Exemption:

The Portfolio is operated by a person that has claimed an exclusion from the definition of the term "commodity pool operator" under the Commodity Exchange Act ("CEA"), and, therefore, such person is not subject to registration or regulation as a pool operator under the CEA.

Portfolio Reorganization

On December 18, 2009, the Board of Directors of the Fund, on behalf of the U.S. Large Company Institutional Index Portfolio, approved an Agreement and Plan of Reorganization (the "Plan of Reorganization"), under which the U.S. Large Company Portfolio (the "Large Company Portfolio"), a portfolio of DFA Investment Dimensions Group Inc., will be reorganized with and into the U.S. Large Company Institutional Index Portfolio (the "Reorganization").

The U.S. Large Company Institutional Index Portfolio and the Large Company Portfolio have identical investment objectives and fundamental investment restrictions, and each Portfolio invests substantially all of its assets in the U.S. Large Company Series.

Under the Plan of Reorganization, the Large Company Portfolio will transfer substantially all of its assets to the U.S. Large Company Institutional Index Portfolio, in exchange solely for shares of the U.S. Large Company Institutional Index Portfolio, which shares will be distributed to shareholders of the Large Company Portfolio according to the aggregate net asset value of their shares held in the Large Company Portfolio immediately prior to the Reorganization. Upon the completion of the Reorganization, the U.S. Large Company Institutional Index Portfolio will change its name to the "U.S. Large Company Portfolio."

It is currently expected that the Reorganization will be completed on or about May 7, 2010.

SECURITIES LOANS

The Master Fund is authorized to lend securities to qualified brokers, dealers, banks and other financial institutions for the purpose of earning additional income. While the Master Fund may earn additional income from lending securities, such activity is incidental to the Master Fund's investment objective. For information concerning the revenue from securities lending see "**SECURITIES LENDING REVENUE.**" The value of securities loaned may not exceed 33 1/3% of the value of the Master Fund's total assets, which includes the value of collateral received. To the extent that the Master Fund loans a portion of its assets, it will receive collateral consisting generally of cash or U.S. government securities, which will be maintained by marking to market daily

in an amount equal to at least (i) 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, and (ii) 102% of the current market value of the loaned securities with respect to U.S. securities, and (iii) 105% of the current market value of the loaned securities with respect to foreign securities. Subject to its stated investment policies, the Master Fund will generally invest the cash collateral received for the loaned securities in The DFA Short Term Investment Fund (the “Money Market Series”), an affiliated registered money market fund advised by the Advisor for which the Advisor receives a management fee of 0.05% of the average daily net assets of the Money Market Series. The Master Fund may also invest such collateral received for the loaned securities in securities of the U.S. government or its agencies, repurchase agreements collateralized by securities of the U.S. government or its agencies and affiliated and unaffiliated registered and unregistered money market funds. For the purposes of this paragraph, agencies include both agency debentures and agency mortgage backed securities.

In addition, the Master Fund will be able to terminate the loan at any time and will receive reasonable compensation on the loan, as well as amounts equal to any dividends, interest or other distributions on the loaned securities. However, dividend income received from loaned securities may not be eligible to be taxed at qualified dividend income rates. See the SAI for a further discussion of the tax consequences related to securities lending. The Master Fund will be entitled to recall a loaned security in time to vote proxies or otherwise obtain rights to vote proxies of loaned securities if the Master Fund knows a material event will occur. In the event of the bankruptcy of the borrower, the Master Fund could experience delay in recovering the loaned securities or only recover cash or a security of equivalent value. The Portfolio is also authorized to lend its portfolio securities. However, as long as it holds only shares of the Master Fund, it will not do so. See “**PRINCIPAL RISKS—Securities Lending**” for a discussion of the risks related to securities lending.

SECURITIES LENDING REVENUE

For the fiscal year ended October 31, 2009, the Portfolio received the following net revenue from a securities lending program which constituted a percentage of the average daily net assets of the Portfolio (see “**SECURITIES LOANS**”):

	<u>Net Revenue</u>	<u>Percentage of Net Assets</u>
U.S. Large Company Portfolio*	\$830,000	0.12%

* A Feeder Portfolio whose corresponding Master Fund is taxed as a partnership. “Net Revenue” reflects the proportional share of the securities lending revenue generated by the Master Fund that was received by the Feeder Portfolio.

MANAGEMENT OF THE PORTFOLIO

The Advisor serves as investment advisor to the Portfolio and the Master Fund. Pursuant to an Investment Advisory Agreement with the Master Fund, the Advisor is responsible for the management of the Master Fund’s assets. Additionally, pursuant to an Investment Advisory Agreement with the Portfolio, the Advisor, for no additional compensation, manages the portion of the Portfolio’s assets that are retained by the Portfolio for cash management purposes and, at its discretion, may make a determination to withdraw the Portfolio’s investment from the Master Fund to invest in another Master Fund if the Advisor believes it is in the best interests of the Portfolio and its shareholders to do so. The Master Fund and Portfolio are each managed using a team approach. The investment team includes the Investment Committee of the Advisor, portfolio managers and trading personnel.

The Investment Committee is composed primarily of certain officers and directors of the Advisor who are appointed annually. As of the date of this Prospectus, the Investment Committee has seven members. Investment

strategies for the Master Fund are set by the Investment Committee, which meets on a regular basis and also as needed to consider investment issues. The Investment Committee also sets and reviews all investment related policies and procedures and approves any changes in regards to security types and brokers.

In accordance with the team approach used to manage the Master Fund and Portfolio, the portfolio managers and portfolio traders implement the policies and procedures established by the Investment Committee. The portfolio managers and portfolio traders also make daily investment decisions regarding the Master Fund including running buy and sell programs based on the parameters established by the Investment Committee. Stephen A. Clark is the portfolio manager that coordinates the efforts of all other portfolio managers with respect to the day-to-day management of the Master Fund and Portfolio.

Mr. Clark is a Senior Portfolio Manager and Vice President of the Advisor and chairman of the Investment Committee. Mr. Clark received his MBA from the University of Chicago and his BS from Bradley University. Mr. Clark joined the Advisor as a portfolio manager in 2001 and has been responsible for the portfolio management group since January 2006.

The Statement of Additional Information (“SAI”) provides information about the portfolio manager’s compensation, other accounts managed by the portfolio manager, and the portfolio manager’s ownership of Portfolio shares.

The Advisor provides the Master Fund with a trading department and selects brokers and dealers to effect securities transactions. Securities transactions are placed with a view to obtaining the best price and execution of such transactions. The Advisor’s address is 6300 Bee Cave Road, Building One, Austin, TX 78746.

A discussion regarding the basis for the Board of Trustees approving the investment management agreement with respect to the Master Fund is available in the semi-annual report for the Portfolio for the fiscal period ending April 30, 2009. The Advisor has been engaged in the business of providing investment management services since May 1981. The Advisor is currently organized as a Delaware limited partnership and is controlled and operated by its general partner, Dimensional Holdings Inc., a Delaware corporation. As of January 31, 2010, assets under management for all Dimensional affiliated advisors totaled approximately \$161 billion.

Dimensional Investment Group Inc. (the “Fund”) and the Trust each bear all of its own costs and expenses, including: services of its independent registered public accounting firm, legal counsel, brokerage commissions and transfer taxes in connection with the acquisition and disposition of portfolio securities, taxes, insurance premiums, costs incidental to meetings of its shareholders and directors or trustees, the cost of filing its registration statements under federal securities laws and the costs of any filings required under state securities laws, reports to shareholders, and transfer and dividend disbursing agency, administrative services and custodian fees. Expenses of the Fund or Trust allocable to the Portfolio or the Master Fund are so allocated and expenses which are not allocable to the Portfolio and the Master Fund are borne by the Portfolio and the Master Fund on the basis of their relative net assets.

Management Fees

The “**Annual Fund Operating Expenses**” table describes the fees incurred by the Portfolio for the services provided by the Advisor for the fiscal year ended October 31, 2009. The “**Management Fee**” listed in the table for the Portfolio provides the investment advisory fee that was payable by the Portfolio to the Advisor.

Fee Waiver and Expense Assumption Agreement

Pursuant to the Fee Waiver and Expense Assumption Agreement for the Portfolio, the Advisor has agreed to waive its administration fee to the extent necessary to reduce the Portfolio’s expenses to the extent that its total direct and indirect expenses (including the expenses the Portfolio bears as a shareholder of the Master Fund)

exceed 0.10% of its average daily net assets on an annualized basis. At any time that the total direct and indirect expenses of the Portfolio are less than 0.10% of its average daily net assets on an annualized basis, the Advisor retains the right to seek reimbursement for any fees previously waived to the extent that such reimbursement will not cause the Portfolio's total direct and indirect expenses to exceed 0.10% of its average net assets on an annualized basis. The Portfolio is not obligated to reimburse the Advisor for fees waived by the Advisor more than thirty-six months before the date of such reimbursement. The Fee Waiver and Expense Assumption Agreement will remain in effect through March 1, 2011, and shall continue in effect from year to year thereafter unless terminated by the Fund or the Advisor.

DIVIDENDS, CAPITAL GAINS DISTRIBUTIONS AND TAXES

Dividends and Distributions. The Portfolio intends to qualify each year as a regulated investment company under the Internal Revenue Code. As a regulated investment company, the Portfolio generally pays no federal income tax on the income and gains it distributes to you. Dividends from net investment income of the Portfolio are generally distributed quarterly (on a calendar basis) and any net realized capital gains (after any reductions for capital loss carryforwards) are distributed annually, typically in December. The Portfolio may distribute such income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the Portfolio.

Capital gains distributions may vary considerably from year to year as a result of the Portfolio's normal investment activities and cash flows. During a time of economic downturn, the Portfolio may experience capital losses and unrealized depreciation in value of investments, the effect of which may be to reduce or eliminate capital gains distributions for a period of time. Even though the Portfolio may experience a current year loss, it may nonetheless distribute prior year capital gains.

You will automatically receive all income dividends and capital gains distributions in additional shares of the Portfolio at net asset value (as of the business date following the dividend record date), unless, upon written notice to the Advisor and completion of account information, you select one of the options listed below:

Income Option—to receive income dividends in cash and capital gains distributions in additional shares at net asset value.

Capital Gains Option—to receive capital gains distributions in cash and income dividends in additional shares at net asset value.

Cash Option—to receive both income dividends and capital gains distributions in cash.

Annual Statements. Every January, you will receive a statement that shows the tax status of dividends and distributions you received the previous calendar year. Distributions declared in December to shareholders of record in such month, but paid in January, are taxable as if they were paid in December.

Avoid "Buying A Dividend." At the time you purchase your Portfolio shares, the Portfolio's net asset value may reflect undistributed income, undistributed capital gains, or net unrealized appreciation in value of portfolio securities held by the Portfolio. A subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable. This is sometimes referred to as "buying a dividend."

Tax Considerations. This discussion of "Tax Considerations" should be read in conjunction with the remaining subsections below containing additional information. Dividends and distributions paid to a qualified, tax-deferred retirement plan, such as a 401(k) plan, accumulate free of federal income taxes. In addition, the sale or redemption by a tax-deferred retirement plan of the Portfolio's shares will not be subject to federal income taxes. Also, unless otherwise indicated, the discussion below with respect to the Portfolio includes the Portfolio's pro rata share of its corresponding Master Fund's income.

In general, if you are a taxable investor, Portfolio distributions (other than exempt-interest dividends) are taxable to you as ordinary income, capital gains, or some combination of both. This is true whether you reinvest your distributions in additional Portfolio shares or receive them in cash.

For federal income tax purposes, Portfolio distributions of short-term capital gains are taxable to you as ordinary income. Portfolio distributions of long-term capital gains are taxable to you as long-term capital gains no matter how long you have owned your shares. A Portfolio with a high portfolio turnover rate (a measure of how frequently assets within a Portfolio are bought and sold) is more likely to generate short-term capital gains than a Portfolio with a low portfolio turnover rate. With respect to taxable years of the Portfolio beginning before January 1, 2011, unless such provision is extended or made permanent, a portion of income dividends designated by the Portfolio may be qualified dividend income eligible for taxation by individual shareholders at long-term capital gain rates provided certain holding period requirements are met.

The Board of Trustees of the Master Fund reserves the right to change the entity classification of the Master Fund for U.S. federal income tax purposes at any time, as may be permitted or required under the Code. For instance, the Board might cause the Master Fund that is classified as a partnership to elect to be classified as a corporation and taxable as a regulated investment company or disregarded entity (if it has one shareholder) or vice versa. Such a change in entity classification may be prompted by, among other things, changes in law, the investment strategy of the Master Fund, or the nature and number of shareholders of the Master Fund or other factors or events adversely affecting the ability of the Master Fund to comply with the Code. A change in entity classification of the Master Fund may be a taxable event, causing the Master Fund and shareholders of the Master Fund that are subject to tax to recognize a taxable gain or loss. Such a change in entity classification would also cause the shareholders of the Master Fund to be subject to a different taxation regime, which may adversely affect some shareholders depending upon their particular circumstances.

The sale of shares of the Portfolio is a taxable event and may result in a capital gain or loss to you. Capital gain or loss may be realized from an ordinary redemption of shares or an exchange of shares between two portfolios. Any loss incurred on the sale or exchange of the Portfolio's shares, held for six months or less, will be treated as a long-term capital loss to the extent of capital gain dividends received with respect to such shares.

By law, the Portfolio is required to withhold 28% of taxable dividends, capital gains distributions, and redemption proceeds paid to you if you do not provide your proper taxpayer identification number and certain required certifications. You may avoid this withholding requirement by providing and certifying on the account registration form your correct Taxpayer Identification Number and by certifying that you are not subject to backup withholding and are a U.S. person (including a U.S. resident alien). The Portfolio must also withhold if the IRS instructs it to do so.

In addition to federal taxes, you may be subject to state and local taxes on distributions from the Portfolio and on gains arising on redemption or exchange of the Portfolio's shares. Distributions of interest income and capital gains realized from certain types of U.S. government securities may be exempt from state personal income taxes.

Non-U.S. Investors. Non-U.S. investors may be subject to U.S. withholding tax at a 30% or lower treaty rate and are subject to special U.S. tax certification requirements to avoid backup withholding and claim any treaty benefits. Exemptions from U.S. withholding tax are provided for capital gain dividends paid by a Portfolio from long-term capital gains, if any, exempt-interest dividends, and, with respect to taxable years of the Portfolio that begin before January 1, 2010 (unless such sunset date is extended, possibly retroactively to January 1, 2010, or made permanent), interest-related dividends paid by the Portfolio from its qualified net interest income from U.S. sources and short-term capital gain dividends. However, notwithstanding such exemptions from U.S. withholding at the source, any such dividends and distributions of income and capital gains will be subject to backup withholding at a rate of 28% if you fail to properly certify that you are not a U.S. person. Non-U.S. investors also may be subject to U.S. estate tax.

This discussion of “Dividends, Capital Gains Distributions and Taxes” is not intended or written to be used as tax advice. Because everyone’s tax situation is unique, you should consult your tax professional about federal, state, local or foreign tax consequences before making an investment in the Portfolio. Prospective investors should also consult the statement of additional information.

PURCHASE OF SHARES

Investors may purchase shares of the Portfolio by first contacting the Advisor at (888) 576-1167 or (512) 306-7400 to notify the Advisor of the proposed investment. The Portfolio generally is available for investment only by institutional clients, clients of registered investment advisors, clients of financial institutions, and a limited number of certain other investors as approved from time to time by the Advisor (“Eligible Investors”). Eligible Investors include employees, former employees, shareholders and directors of the Advisor and the Fund and friends and family members of such persons. All investments are subject to approval of the Advisor, and all investors must complete and submit the necessary account registration forms in good order. The Funds reserve the right to reject any initial or additional investment and to suspend the offering of shares of the Portfolio.

“Good order” with respect to the purchase of shares means that (1) a fully completed and properly signed Account Registration Form and any additional supporting legal documentation required by the Advisor have been received in legible form, and (2) the Advisor has been notified of the purchase by telephone and, if the Advisor so requests, also in writing, no later than the close of regular trading on the NYSE (normally, 1:00 p.m. PST) on the day of the purchase. If an order to purchase shares must be canceled due to nonpayment, the purchaser will be responsible for any loss incurred by a Fund arising out of such cancellation. To recover any such loss, the Funds reserve the right to redeem shares owned by any purchaser whose order is canceled, and such purchaser may be prohibited or restricted in the manner of placing further orders.

Investors having an account with a bank that is a member or a correspondent of a member of the Federal Reserve System may purchase shares by first calling the Advisor at (888) 576-1167 or (512) 306-7400 to notify the Advisor of the proposed investment, then requesting the bank to transmit immediately available funds (Federal Funds) by wire to the custodian, for the account of Dimensional Investment Group Inc. (U.S. Large Company Institutional Index Portfolio). Additional investments also may be made through the wire procedure by first notifying the Advisor. Investors who wish to purchase shares by check should send their check to Dimensional Investment Group Inc., c/o PNC Global Investment Servicing, Attn: Mail Stop F4-F760-1A-J, 760 Moore Road, King of Prussia, PA 19406.

Shares also may be purchased and sold by individuals through securities firms that may charge a service fee or commission for such transactions. No such fee or commission is charged on shares that are purchased or redeemed directly from the Fund. Investors who are clients of investment advisory organizations may also be subject to investment advisory fees under their own arrangements with such organizations.

Purchases of shares will be made in full and fractional shares calculated to three decimal places. In the interest of economy and convenience, certificates for shares will not be issued.

In-Kind Purchases

If accepted by the Fund, shares of the Portfolio may be purchased in exchange for securities which are eligible for acquisition by the Master Fund or otherwise represented in its portfolio as described in this Prospectus or as otherwise consistent with the Funds’ policies and procedures. Securities accepted by the Fund for exchange and shares of the Portfolio to be issued in the exchange will be valued as set forth under “**VALUATION OF SHARES**” at the time of the next determination of net asset value after such acceptance. All dividends, interest, subscription, or other rights pertaining to such securities shall become the property of the Portfolio and must be delivered to the Fund by the investor upon receipt from the issuer.

The Fund will not accept securities in exchange for shares of the Portfolio unless: (1) such securities are, at the time of the exchange, eligible to be included, or otherwise represented, in the Master Fund and current market quotations are readily available for such securities; (2) the investor represents and agrees that all securities offered to be exchanged are not subject to any restrictions upon their sale by the Master Fund under the Securities Act of 1933 or otherwise; and (3) at the discretion of the Fund, the value of any such security (except U.S. government securities) being exchanged together with other securities of the same issuer owned by the Master Fund may not exceed 5% of the net assets of the Master Fund immediately after the transaction.

A gain or loss for federal income tax purposes will generally be realized by investors who are subject to federal taxation upon the exchange depending upon the cost of the securities exchanged. Investors interested in such exchanges should contact the Advisor.

POLICY REGARDING EXCESSIVE OR SHORT-TERM TRADING

The Portfolio is designed for long-term investors and is not intended for investors that engage in excessive short-term trading activity that may be harmful to the Portfolio, including but not limited to market timing. Short-term or excessive trading into and out of the Portfolio can disrupt portfolio management strategies, harm performance and increase Portfolio expenses for all shareholders, including long-term shareholders who do not generate these costs.

The Board of Directors of the Fund and Board of Trustees of the Trust (collectively, the “Board”) have adopted a policy (the “Trading Policy”) and the Advisor and DFA Securities LLC (collectively, “Dimensional”) and Dimensional’s agents have implemented the following procedures, which are designed to discourage and prevent market timing or excessive short-term trading in the Portfolio: (i) trade activity monitoring and purchase blocking procedures; and (ii) use of fair value pricing.

The Fund, Dimensional and their agents monitor trades and flows of money in and out of the Portfolio from time to time in an effort to detect excessive short-term trading activities, and for consistent enforcement of the Trading Policy. The Fund reserves the right to take the actions necessary to stop excessive or disruptive trading activities, including refusing or canceling purchase or exchange orders for any reason, without prior notice, particularly purchase or exchange orders that the Fund believes are made on behalf of market timers. The Fund, Dimensional and their agents reserve the right to restrict, refuse or cancel any purchase or exchange request made by an investor indefinitely if the Fund or Dimensional believe that any combination of trading activity in the accounts is potentially disruptive to the Portfolio or the Master Fund. In making such judgments, the Fund and Dimensional seek to act in a manner that is consistent with the interests of shareholders. For purposes of applying these procedures, Dimensional may consider an investor’s trading history in the Portfolio, and accounts under common ownership, influence or control.

In addition to the Fund’s general ability to restrict potentially disruptive trading activity as described above, the Fund also has adopted purchase blocking procedures. Under the Fund’s purchase blocking procedures, where an investor has engaged in any two purchases and two redemptions (including redemptions that are part of an exchange transaction) in the Portfolio in any rolling 30 calendar day monitoring period (i.e., two “round trips”), the Fund and Dimensional intend to block the investor from making any additional purchases in the Portfolio for 90 calendar days (a “purchase block”). If implemented, a purchase block will begin at some point after the transaction that caused the investor to have engaged in the prohibited two round-trips is detected by the Fund, Dimensional, or their agents. The Fund and Dimensional are permitted to implement a longer purchase block, or permanently bar future purchases by an investor, if they determine that it is appropriate.

Under the Fund’s purchase blocking procedures, the following purchases and redemptions will not trigger a purchase block: (i) purchases and redemptions of shares having a value in each transaction of less than \$5,000; (ii) purchases and redemptions by U.S. registered investment companies that operate as fund of funds and

non-U.S. investment companies that operate as fund of funds that the Funds or Dimensional, in their sole discretion, have determined are not designed and/or are not serving as vehicles for excessive short-term or other disruptive trading (in each case, the fund of funds shall agree to be subject to monitoring by Dimensional); (iii) purchases and redemptions by a feeder portfolio of a master fund's shares; (iv) systematic or automated transactions where the shareholder, financial advisor or investment fiduciary does not exercise direct control over the investment decision; (v) retirement plan contributions, loans, loan repayments and distributions (including hardship withdrawals) identified as such in the retirement plan recordkeeper's system; (vi) purchase transactions involving transfers of assets, rollovers, Roth IRA conversions and IRA recharacterizations; (vii) purchases of shares with Portfolio dividends or capital gain distributions; (viii) transfers and reregistrations of shares within the Portfolio; and (ix) transactions by 529 Plans. Notwithstanding the Fund's purchase blocking procedures, all transactions in Portfolio shares are subject to the right of the Fund and Dimensional to restrict potentially disruptive trading activity (including purchases and redemptions described above that will not be subject to the purchase blocking procedures).

In addition, the purchase blocking procedures will not apply to a redemption transaction in which the Portfolio distributes portfolio securities to a shareholder in-kind, where the redemption will not disrupt the efficient portfolio management of the Portfolio/Master Fund and the redemption is consistent with the interests of the remaining shareholders of the Portfolio/Master Fund.

The Fund, Dimensional or their designees will have the ability, pursuant to Rule 22c-2 under the Investment Company Act of 1940 (the "1940 Act"), to request information from financial intermediaries, such as 401(k) plan administrators, trust companies and broker dealers (together, "Intermediaries"), concerning trades placed in omnibus and other multi-investor accounts (together, "Omnibus Accounts"), in order to attempt to monitor trades that are placed by the underlying shareholders of these Omnibus Accounts. The Fund, Dimensional and their designees will use the information obtained from the Intermediaries to monitor trading in the Portfolio and to attempt to identify shareholders in Omnibus Accounts engaged in trading that is inconsistent with the Trading Policy or otherwise not in the best interests of the Portfolio. The Fund, Dimensional or their designees, when they detect trading patterns in shares of the Portfolio that may constitute short-term or excessive trading, will provide written instructions to the Intermediary to restrict or prohibit further purchases or exchanges of shares of the Portfolio by a shareholder that has been identified as having engaged in excessive or short-term transactions in the Portfolio's shares (directly or indirectly through the Intermediary's account) that violate the Trading Policy.

The ability of the Fund and Dimensional to impose these limitations, including the purchase blocking procedures, on investors investing through Intermediaries is dependent on the receipt of information necessary to identify transactions by the underlying investors and the Intermediary's cooperation in implementing the Trading Policy. Investors seeking to engage in excessive short-term trading practices may deploy a variety of strategies to avoid detection, and despite the efforts of the Fund and Dimensional to prevent excessive short-term trading, there is no assurance that the Fund, Dimensional or their agents will be able to identify those shareholders or curtail their trading practices. The ability of the Fund, Dimensional and their agents to detect and limit excessive short-term trading also may be restricted by operational systems and technological limitations.

The purchasing blocking procedures of the Trading Policy may not apply to redemptions by shareholders whose shares are held on the books of Intermediaries if the Intermediaries have not adopted procedures to implement this Policy. The Fund and Dimensional will work with Intermediaries to develop such policies to institute the purchase blocking procedures or other procedures that the Fund and Dimensional determine are reasonably designed to achieve the objective of this Trading Policy. At the time the Intermediaries adopt these procedures, shareholders whose accounts are on the books of such Intermediaries will be subject to the Trading Policy's purchase blocking procedures or another frequent trading policy that achieves the objective of the purchase blocking procedures. Investors that invest in the Portfolio through an Intermediary should contact the Intermediary for information concerning the policies and procedures that apply to the investor.

As of the date of this Prospectus, the ability of the Fund and Dimensional to apply the purchase blocking procedures on purchases by all investors and the ability of the Fund and Dimensional to monitor trades through

Omnibus Accounts maintained by Intermediaries may be restricted due to systems limitations of both the Fund’s service providers and the Intermediaries. The Fund expects that the application of the Trading Policy as described above, including the purchase blocking procedures (subject to the limitations described above), will be able to be implemented by Intermediaries in compliance with Rule 22c-2 under the 1940 Act.

In addition to monitoring trade activity, the Board has adopted fair value pricing procedures that govern the pricing of the securities of the Master Fund. These procedures are designed to help ensure that the prices at which Portfolio shares are purchased and redeemed are fair, and do not result in dilution of shareholder interests or other harm to shareholders. See the discussion under “**VALUATION OF SHARES—Net Asset Value**” for additional details regarding fair value pricing of the Portfolio’s securities.

Although the procedures are designed to discourage excessive short-term trading, none of the procedures individually nor all of the procedures taken together can completely eliminate the possibility that excessive short-term trading activity in the Portfolio may occur. The Portfolio and Master Fund do not knowingly accommodate excessive or disruptive trading activities, including market timing.

VALUATION OF SHARES

Net Asset Value

The net asset values per share of the Portfolio and Master Fund are generally calculated on days that the NYSE is open for trading. The net asset values per share of the Portfolio and the Master Fund are calculated after the close of the NYSE (normally, 1:00 p.m. PT) by dividing the total value of their respective investments and other assets, less any liabilities, by the total outstanding shares of the stock of the Portfolio and the Master Fund, respectively. The net asset values will not be calculated on days the NYSE is closed, including national holidays. *Note:* The time at which transactions and shares are priced may be changed in case of an emergency or if the NYSE closes at a time other than 1:00 p.m. PT.

The value of the Portfolio’s shares will fluctuate in relation to the investment experience of the Master Fund. Securities (including over-the-counter securities) held by the Master Fund are valued at the last quoted sale price of the day. Securities held by the Master Fund that are listed on Nasdaq are valued at the Nasdaq Official Closing Price (“NOCP”). If there is no last reported sale price or NOCP of the day, the Master Fund values the securities at the mean of the most recent quoted bid and asked prices. Price information on listed securities is taken from the exchange where the security is primarily traded. The value of the securities and other assets of the Master Fund for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are determined in good faith at fair value in accordance with procedures adopted by the Board of Trustees of the Trust. Fair value pricing may also be used if events that have a significant effect on the value of an investment (as determined in the discretion of the Investment Committee of the Advisor) occur before the net asset value is calculated. When fair value pricing is used, the prices of securities used by the Master Fund may differ from the quoted or published prices for the same securities on their primary markets or exchanges.

Valuing securities at fair value involves greater reliance on judgment than valuing securities that have readily available market quotations. There can be no assurance that the Master Fund could obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Master Fund determines its net asset value per share. As a result, the sale or redemption by the Portfolio or the Master Fund of shares at net asset value, at a time when a holding or holdings are valued at fair value, may have the effect of diluting or increasing the economic interest of existing shareholders.

Public Offering Price

Provided that the Advisor or transfer agent has received the investor’s Account Registration form in good order and the custodian has received the investor’s payment, shares of the Portfolio will be priced at the public

offering price, which is the net asset value of the shares next determined after receipt of the investor's funds by the custodian. "Good order" with respect to the purchase of shares means that (1) a fully completed and properly signed Account Registration form and any additional supporting legal documentation required by the Advisor have been received in legible form and (2) the Advisor has been notified of the purchase by telephone and, if the Advisor so requests, also in writing, no later than the close of regular trading on the NYSE (normally, 1:00 p.m. PT) on the day of the purchase. The transfer agent or the Fund may, from time to time, appoint sub-transfer agents or various financial intermediaries ("Intermediaries") for the receipt of purchase orders, redemption orders and funds from certain investors. Intermediaries, in turn, are authorized to designate other financial intermediaries ("Sub-designees") to receive purchase and redemption orders for the Portfolio's shares from investors. With respect to such investors, the shares of the Portfolio will be priced at the public offering price calculated after receipt of the purchase order by the Intermediary or Sub-designee, as applicable, that is authorized to receive purchase orders. If the investor buys shares through an Intermediary or a Sub-designee, the purchase price will be the public offering price next calculated after the Intermediary or Sub-designee, as applicable, receives the order, rather than on the day the custodian receives the investor's payment (provided that the Intermediary or Sub-designee, as applicable, has received the investor's purchase order in good order, and the investor has complied with the Intermediary's or Sub-designee's payment procedures). If an order to purchase shares must be canceled due to non-payment, the purchaser will be responsible for any loss incurred by the Fund arising out of such cancellation. The Fund reserves the right to redeem shares owned by any purchaser whose order is canceled to recover any resulting loss to the Fund and may prohibit or restrict the manner in which such purchaser may place further orders.

EXCHANGE OF SHARES

Investors may exchange shares of the Portfolio for those of another portfolio in the Fund or a portfolio of DFA Investment Dimensions Group Inc. ("DFAIDG"), an open-end, management investment company. Investors should first contact the Advisor at (888) 576-1167 or (512) 306-7400 to notify the Advisor of the proposed exchange and then send a letter of instruction. Letters of instruction regarding exchanges of shares may be mailed to:

Dimensional Investment Group Inc.
Attn: Client Operations
6300 Bee Cave Road, Building One
Austin, TX 78746

The minimum amount for an exchange into a portfolio of DFAIDG is \$100,000. Exchanges are accepted only into those portfolios of DFAIDG that are eligible for the exchange privilege of DFAIDG. Investors may contact the Advisor at the above-listed phone number for a list of those portfolios of DFAIDG that accept exchanges.

The exchange privilege is not intended to afford shareholders a way to speculate on short-term movements in the markets. Accordingly, in order to prevent excessive use of the exchange privilege that may potentially disrupt the management of the Portfolio or otherwise adversely affect the Fund or DFAIDG, any proposed exchange will be subject to the approval of the Advisor. Such approval will depend on: (i) the size of the proposed exchange; (ii) the prior number of exchanges by that shareholder; (iii) the nature of the underlying securities and the cash position of the Portfolio and of the portfolio of the Fund or DFAIDG involved in the proposed exchange; (iv) the transaction costs involved in processing the exchange; and (v) the total number of redemptions by exchange already made out of the Portfolio. Excessive use of the exchange privilege is defined as any pattern of exchanges among portfolios by an investor that evidences market timing.

The redemption and purchase prices of shares redeemed and purchased by exchange, respectively are the net asset values next determined after the Advisor has received a letter of instruction in good order. "Good order"

means a completed letter of instruction specifying the dollar amount to be exchanged, signed by all registered owners (or representatives thereof) of the shares; and if a Fund does not have on file the authorized signatures for the account, proof of authority. Exchanges will be accepted only if stock certificates have not been issued and the shares of the Portfolio being acquired are registered in the investor's state of residence.

There is no fee imposed on an exchange. However, the Fund reserves the right to impose an administrative fee in order to cover the costs incurred in processing an exchange. Any such fee will be disclosed in the Prospectus. An exchange is treated as a redemption and a purchase. Therefore, an investor could realize a taxable gain or a loss on the transaction. The Fund reserves the right to revise or terminate the exchange privilege, waive the minimum amount requirement, limit the amount of or reject any exchange, as deemed necessary, at any time.

REDEMPTION OF SHARES

Redemption Procedure

Investors who desire to redeem shares of the Portfolio must first contact the Advisor at (888) 576-1167 or (512) 306-7400. The Portfolio will redeem shares at the net asset value of such shares next determined after receipt of a written request for redemption in good order by the Portfolio's transfer agent (or to an Intermediary or a Sub-designee, if applicable). "Good order" means that the request to redeem shares must include all necessary documentation, to be received in writing by the Advisor no later than the close of regular trading on the NYSE (normally, 1:00 p.m. PT), including but not limited to: the stock certificate(s), if issued; a letter of instruction or a stock assignment specifying the number of shares or dollar amount to be redeemed, signed by all registered owners (or authorized representatives thereof) of the shares; if the Fund does not have on file the authorized signatures for the account, proof of authority.

Redeeming shareholders who have authorized redemption payment by wire on an authorization form filed with the Fund, may request that redemption proceeds be paid in federal funds wired to the bank they have designated on the authorization form. If the proceeds are wired to the shareholder's account at a bank which is not a member of the Federal Reserve System, there could be a delay in crediting the funds to the shareholder's bank account. The Fund reserves the right at any time to suspend or terminate the redemption by wire procedure after notification to shareholders. No charge is made by the Fund for redemptions. The redemption of all shares in an account will result in the account being closed. A new Account Registration Form will be required for further investments. (See "**PURCHASE OF SHARES.**")

Although the redemption payments will ordinarily be made within seven days after receipt, payment to investors redeeming shares which were purchased by check will not be made until the Fund can verify that the payments for the purchase have been, or will be, collected, which may take up to ten days or more. Investors may avoid this delay by submitting a certified check along with the purchase order.

Redemption of Small Accounts

The Fund reserves the right to redeem an account if the value of the shares in the account is \$500 or less because of redemptions. Before the Fund involuntarily redeems shares from such an account and sends the proceeds to the stockholder, the Fund will give written notice of the redemption to the stockholder at least sixty days before the redemption date. The stockholder will then have sixty days from the date of the notice to make an additional investment in the Portfolio in order to bring the value of the shares in the account to more than \$500 and avoid such involuntary redemption. The redemption price to be paid to a stockholder for shares redeemed by the Fund under this right will be the aggregate net asset value of the shares in the account at the close of business on the redemption date. This right to redeem small accounts applies to accounts established with the Fund's transfer agent.

In-Kind Redemptions

When in the best interests of the Portfolio, the Portfolio may make a redemption payment, in whole or in part, by a distribution of portfolio securities that the Portfolio receives from the Master Fund in lieu of cash. Such distributions will be made in accordance with the federal securities laws and regulations governing mutual funds. Investors may incur brokerage charges and other transaction costs selling securities that were received in payment of redemptions.

THE FEEDER PORTFOLIO

The Master-Feeder structure is relatively complex. While this structure is designed to reduce costs, it may not do so. As a result, a Portfolio might encounter operational or other complications. Other institutional investors, including other mutual funds, may invest in the Master Fund. Accordingly, the expenses of such other funds and, correspondingly, their returns may differ from those of the Portfolio. Please contact The DFA Investment Trust Company at 6300 Bee Cave Road, Building One, Austin, TX 78746, (512) 306-7400 for information about the availability of investing in the Master Fund other than through the Portfolio.

The aggregate amount of expenses for the Portfolio and the Master Fund may be greater than it would be if the Portfolio were to invest directly in the securities held by the Master Fund. However, the total expense ratios for the Portfolio and the Master Fund are expected to be less over time than such ratios would be if the Portfolio were to invest directly in the underlying securities. This arrangement enables various institutional investors, including the Portfolio, to pool their assets, which may be expected to result in economies by spreading certain fixed costs over a larger asset base. Each shareholder in the Master Fund, including the Portfolio, will pay its proportionate share of the expenses of the Master Fund.

The shares of the Master Fund will be offered to institutional investors for the purpose of increasing the funds available for investment, to reduce expenses as a percentage of total assets and to achieve other economies that might be available at higher asset levels. Investment in the Master Fund by other institutional investors offers potential benefits to the Master Fund and, through its investment in the Master Fund, the Feeder Portfolio also. However, such economies and expense reductions might not be achieved, and additional investment opportunities, such as increased diversification, might not be available if other institutions do not invest in the Master Fund. Also, if an institutional investor were to redeem its interest in the Master Fund, the remaining investors in the Master Fund could experience higher pro rata operating expenses, thereby producing lower returns, and the Master Fund's security holdings may become less diverse, resulting in increased risk. Institutional investors that have a greater pro rata ownership interest in the Master Fund than the Portfolio could have effective voting control over the operation of the Master Fund.

If the Board of Directors of the Fund determines that it is in the best interest of the Portfolio, it may withdraw its investment in the Master Fund at any time. Upon any such withdrawal, the Board would consider what action the Portfolio might take, including either seeking to invest its assets in another registered investment company with the same investment objective as the Portfolio, which might not be possible, or retaining an investment advisor to manage the Portfolio's assets in accordance with its own investment objective, possibly at increased cost. Shareholders of the Portfolio will receive written notice thirty days before the effective date of any changes in the investment objective of the Master Fund. A withdrawal by the Portfolio of its investment in the Master Fund could result in a distribution in kind of portfolio securities (as opposed to a cash distribution) to the Portfolio. Should such a distribution occur, the Portfolio could incur brokerage fees or other transaction costs in converting such securities to cash in order to pay redemptions. In addition, a distribution in kind to a Portfolio could result in a less diversified portfolio of investments and could affect adversely the liquidity of the Portfolio. Moreover, a distribution in kind by the Master Fund to the Portfolio may constitute a taxable exchange for federal income tax purposes resulting in gain or loss to the Portfolio. Any net capital gains so realized will be distributed to the Portfolio's shareholders as described in **"DIVIDENDS, CAPITAL GAINS DISTRIBUTIONS AND TAXES."**

DISCLOSURE OF PORTFOLIO HOLDINGS

The Portfolio and Master Fund generally will disclose up to 25 of the Master Fund's largest portfolio holdings (other than cash and cash equivalents) and the percentages that each of these largest portfolio holdings represent of the total assets of the Master Fund, as of the most recent month-end, online at the Advisor's public website, <http://www.dimensional.com>, within 20 days after the end of each month. The Portfolio and Master Fund also generally will disclose the Master Fund's complete portfolio holdings (other than cash and cash equivalents), as of month-end, online at the Advisor's public website, two months following the month-end or more frequently and at different periods when authorized in accordance with the Portfolio's and Master Fund's policies and procedures. Please consult the SAI for a description of the other policies and procedures that govern disclosure of the portfolio holdings by the Portfolio and Master Fund.

DELIVERY OF SHAREHOLDER DOCUMENTS

To eliminate duplicate mailings and reduce expenses, the Portfolio may deliver a single copy of certain shareholder documents, such as this Prospectus and annual and semi-annual reports, to related shareholders at the same address, even if accounts are registered in different names. This practice is known as "householding." The Portfolio will not household personal information documents, such as account statements. If you do not want the mailings of these documents to be combined with other members of your household, please call us collect at (512) 306-7400. We will begin sending individual copies of the shareholder documents to you within 30 days of receiving your request.

FINANCIAL HIGHLIGHTS

The Financial Highlights table is meant to help you understand the Portfolio's financial performance for the past five years. The total returns in the table represent the rate that you would have earned (or lost) on an investment in the Portfolio, assuming reinvestment of all dividends and distributions. This information has been audited by PricewaterhouseCoopers LLP, whose report, along with the Portfolio's annual financial statements, are included in the Fund's annual report which is available upon request.
