Dimensional Investment Group Inc.

DFA International Value Portfolio III

U.S. Large Cap Value Portfolio III

Tax-Managed U.S. Marketwide Value Portfolio II

Dimensional Fund Advisors
6300 Bee Cave Road, Building One
Austin, TX 78746

May 2011

Dear Fellow Shareholder,

We recently celebrated Dimensional's thirtieth anniversary. The firm has developed in ways we never could have predicted. Our success owes a lot to our clients, especially those we've had a long relationship with. We are proud that these relationships have been beneficial for our clients and for Dimensional.

Thirty years of growth has brought many changes. But some things haven't changed, and these have been a key to our success. We have always acted in the best interests of clients and strived to earn and maintain trust by doing what we say we are going to do. We have always worked hard to demonstrate the validity of our ideas. We never try to predict how much money our clients could make, but we have always worked to deliver a good investment experience. We continue to believe strongly in the principles of diversification and discipline. We've been fortunate to find clients sharing that belief and helping us grow into the firm we are now.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Booth'.

David G. Booth
Chairman and Co-Chief Executive Officer

DIMENSIONAL INVESTMENT GROUP INC.
DISCLOSURE OF FUND EXPENSES
(Unaudited)

The following Expense Tables are shown so that you can understand the impact of fees on your investment. All mutual funds have operating expenses. As a shareholder of the fund, you incur ongoing costs, which include costs for portfolio management, administrative services, and shareholder reports, among others. Operating expenses, legal and audit services, which are deducted from a fund's gross income, directly reduce the investment return of the fund. A fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing costs, in dollars, of investing in the fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period.

The Expense Tables below illustrate your fund's costs in two ways.

Actual Fund Return

This section helps you to estimate the actual expenses after fee waivers that you paid over the period. The "Ending Account Value" shown is derived from the fund's actual return and "Expenses Paid During Period" reflect the dollar amount that would have been paid by an investor who started with \$1,000 in the fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period.

To do so, simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number given for your fund under the heading "Expenses Paid During Period."

Hypothetical Example for Comparison Purposes

This section is intended to help you compare your fund's costs with those of other mutual funds. The hypothetical "Ending Account Value" and "Expenses Paid During Period" are derived from the fund's actual expense ratio and an assumed 5% annual return before expenses. In this case, because the return used is not the fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% annual return. You can assess your fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the tables are meant to highlight and help you compare ongoing costs only and do not reflect any transactional costs, if applicable. The "Annualized Expense Ratio" represents the actual expenses for the six-month period indicated.

Six Months Ended April 30, 2011

EXPENSE TABLES

| | <u>Beginning Account Value 11/01/10</u> | <u>Ending Account Value 04/30/11</u> | <u>Annualized Expense Ratio*</u> | <u>Expenses Paid During Period*</u> |
|---|---|--|--|---|
| <u>DFA International Value Portfolio III</u> | | | | |
| Actual Fund Return | \$1,000.00 | \$1,145.85 | 0.25% | \$1.33 |
| Hypothetical 5% Annual Return | \$1,000.00 | \$1,023.55 | 0.25% | \$1.25 |
| <u>U.S. Large Cap Value Portfolio III</u> | | | | |
| Actual Fund Return | \$1,000.00 | \$1,220.12 | 0.14% | \$0.77 |
| Hypothetical 5% Annual Return | \$1,000.00 | \$1,024.10 | 0.14% | \$0.70 |

DISCLOSURE OF FUND EXPENSES

CONTINUED

| | Beginning Account Value 11/01/10 | Ending Account Value 04/30/11 | Annualized Expense Ratio* | Expenses Paid During Period* |
|--|---|--|---------------------------------|---------------------------------------|
| <u>Tax-Managed U.S. Marketwide Value Portfolio II</u> | | | | |
| Actual Fund Return..... | \$ 1,000.00 | \$ 1,223.43 | 0.23% | \$1.27 |
| Hypothetical 5% Annual Return..... | \$ 1,000.00 | \$ 1,023.65 | 0.23% | \$1.15 |

* Expenses are equal to the fund's annualized expense ratio for the six-month period, multiplied by the average account value over the period, multiplied by the number of days in the most recent six-month period (181), then divided by the number of days in the year (365) to reflect the six-month period. The Portfolio is a Feeder Fund. The expenses shown reflect the direct expenses of the Feeder Fund and the indirect payment of the Feeder Fund's portion of the expenses of its Master Fund (Affiliated Investment Company).

DIMENSIONAL INVESTMENT GROUP INC.
DISCLOSURE OF PORTFOLIO HOLDINGS
(Unaudited)

The SEC requires that all Funds file a complete Schedule of Investments with the SEC for their first and third fiscal quarters on Form N-Q. For Dimensional Investment Group Inc., this would be for the fiscal quarters ending January 31 and July 31. The Form N-Q filing must be made within 60 days of the end of the quarter. Dimensional Investment Group Inc. filed its most recent Form N-Q with the SEC on March 31, 2011. It is available upon request, without charge, by calling collect: (512) 306-7400 or by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, Texas 78746, or by visiting the SEC's website at <http://www.sec.gov>, or they may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the Public Reference Room).

PORTFOLIO HOLDINGS

The SEC requires that all Funds present their categories of portfolio holdings in a table, chart or graph format in their annual and semi-annual shareholder reports, whether or not a Schedule of Investments is utilized. The following table, which presents portfolio holdings as a percent of total investments before short-term investments and collateral for loaned securities, is provided in compliance with such requirement.

The categories of industry classification for the Affiliated Investment Company are represented in the Disclosure of Portfolio Holdings, which are included elsewhere within the report. Refer to the Summary Schedule of Portfolio Holdings for the underlying Master Funds' holdings which reflect the investments by category.

DIMENSIONAL INVESTMENT GROUP INC.
NOTES TO FINANCIAL STATEMENTS
(Unaudited)

A. Organization:

Dimensional Investment Group Inc. (the “Fund”) is an open-end management investment company registered under the Investment Company Act of 1940, whose shares are offered to institutional investors, retirement plans and clients of registered investment advisors. The Fund consists of fifteen portfolios, of which DFA International Value Portfolio III, U.S. Large Cap Value Portfolio III and Tax-Managed U.S. Marketwide Value Portfolio II (the “Portfolios”) are presented in this report.

DFA International Value Portfolio III, U.S. Large Cap Value Portfolio III and Tax-Managed U.S. Marketwide Value Portfolio II primarily invests their assets in The DFA International Value Series, The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series (the “Series”), respectively, each a corresponding Series of The DFA Investment Trust Company. At April 30, 2011, DFA International Value Portfolio III, U.S. Large Cap Value Portfolio III and Tax-Managed U.S. Marketwide Value Portfolio II owned 17%, 20% and 29% of their respective Series. The financial statements of the Series are included elsewhere in this report and should be read in conjunction with the financial statements of the Portfolios.

On November 1, 2008, The DFA International Value Series, a master fund in a RIC/RIC master-feeder structure, elected with the consent of its respective Holder(s) to change its U.S. federal income tax classification from that of an association taxable as a corporation to a partnership pursuant to Treasury Regulation § 301.7701-3. The change in capital structure and retroactive reclassification of the statement of changes in net assets and financial highlights for the respective funds is a result of the treatment of a partnership for book purposes. The Series/Portfolio will maintain its books and records and present its financial statements in accordance with generally accepted accounting principles for investment partnerships.

Effective December 31, 2008, The U.S. Large Cap Value Series, a master fund in a RIC/RIC master-feeder structure, elected with the consent of its respective Holder(s) to change its U.S. federal income tax classification from that of an association taxable as a corporation to a partnership pursuant to Treasury Regulation § 301.7701-3. The change in capital structure and retroactive reclassification of the statement of changes in net assets and financial highlights for the fund is a result of the treatment of a partnership for book purposes. The Series/Portfolio will maintain its books and records and present its financial statements in accordance with generally accepted accounting principles for investment partnerships.

At a regular meeting of the Board of Directors/Trustees (the “Board”) on September 16, 2008, the Board voted to change the fiscal and tax year ends of the Portfolios from November 30 to October 31.

B. Significant Accounting Policies:

The following significant accounting policies are in conformity with accounting principles generally accepted in the United States of America. Such policies are consistently followed by the Fund in preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and those differences could be material.

1. *Security Valuation:* The Portfolios utilize a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels described below:

- Level 1 – quoted prices in active markets for identical securities

- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Portfolio’s own assumptions in determining the fair value of investments)

The Portfolios’ investment reflects its proportionate interest in the net assets of the Series. These valuations are classified as Level 1 in the hierarchy.

A summary of the inputs used to value the Portfolios’ investments is disclosed at the end of the Schedule of Investments. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Portfolios did not have any significant transfers between Level 1 and Level 2 during the six months ended April 30, 2011.

2. *Deferred Compensation Plan:* Each eligible Director of the Fund may elect participation in the Deferred Compensation Plan (the “Plan”). Under the Plan, effective January 1, 2002, such Directors may defer payment of all or a portion of their total fees earned as a Director. These deferred amounts may be treated as though such amounts had been invested in shares of the following funds: U.S. Large Cap Value Portfolio; U.S. Core Equity 1 Portfolio; U.S. Core Equity 2 Portfolio; U.S. Vector Equity Portfolio; U.S. Micro Cap Portfolio; DFA International Value Portfolio; International Core Equity Portfolio; Emerging Markets Portfolio; Emerging Markets Core Equity Portfolio; and/or DFA Two-Year Global Fixed Income Portfolio. Contributions made under the Plan and the change in unrealized appreciation (depreciation) and income are included in Directors’/Trustees’ Fees & Expenses.

Each Director has the option to receive their distribution of proceeds in one of the following methods: lump sum; annual installments over a period of agreed upon years; or quarterly installments over a period of agreed upon years. Each Director shall have the right in a notice of election to defer compensation (the “Notice”) to elect to defer the receipt of the Director’s deferred compensation until a date specified by such Director in the Notice, which date may not be sooner than the earlier of: (i) the first business day of January following the year in which such Director ceases to be a member of the Board of the Fund; and (ii) five years following the effective date of the Director’s first deferral election. If a Director who elects to defer fees fails to designate in the Notice a time or date as of which payment of the Director’s deferred fee account shall commence, payment of such amount shall commence as of the first business day of January following the year in which the Director ceases to be a member of the Board of the Fund (unless the Director files an amended Notice selecting a different distribution date). As of April 30, 2011, none of the Directors have requested or received a distribution of proceeds of a deferred fee account.

3. *Other:* The Portfolios recognize their pro-rata share, on a daily basis, of net investment income and realized and unrealized gains and losses of investment securities from the Series, which is treated as a partnership for federal income tax purposes. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Distributions received on securities that represent a return of capital or capital gain are recorded as a reduction of cost of investments or as a realized gain, respectively. The Portfolios estimate the character of distributions received that may be considered return of capital distributions. Expenses directly attributable to the Portfolios are directly charged. Common expenses of the Fund are allocated using methods approved by the Board of Directors/Trustees, generally based on average net assets.

C. Investment Advisor:

Dimensional Fund Advisors LP (“Dimensional” or the “Advisor”) provides administrative services to the Portfolios, including supervision of services provided by others, providing information to the shareholders and to the Board of Directors/Trustees, and other administrative services. The Advisor provides investment advisory services to the Series. For the six months ended April 30, 2011, the Portfolios’ administrative services fees were accrued daily and paid monthly to the Advisor based on an effective annual rate of 0.01% of average daily net assets, except for the Tax-Managed U.S. Marketwide Value Portfolio II, which pays no fee.

Fees Paid to Officers and Directors/Trustees:

Certain Officers and Directors/Trustees of the Advisor are also Officers and Directors/Trustees of the Fund; however, such Officers and Directors/Trustees (with the exception of the Chief Compliance Officer (“CCO”)) receive no compensation from the Fund. For the six months ended April 30, 2011, the total related amounts paid by the Fund to the CCO were \$16 (in thousands). The total related amounts paid by the Portfolios are included in Other Expenses on the Statement of Operations.

D. Deferred Compensation:

At April 30, 2011, the total liability for deferred compensation to Directors/Trustees is included in Accrued Expenses and other Liabilities on the Statement of Assets and Liabilities as follows (amounts in thousands):

| | |
|--|------|
| DFA International Value Portfolio III..... | \$33 |
| U.S. Large Cap Value Portfolio III | 49 |
| Tax-Managed U.S. Marketwide Value Portfolio II | 22 |

E. Federal Income Taxes:

Each Portfolio has qualified and intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code for federal income tax purposes and to distribute substantially all of its taxable income and net capital gains to shareholders. Accordingly, no provision has been made for federal income taxes.

Distributions from net investment income and net realized capital gains are determined in accordance with U.S. federal income tax regulations, which may differ from those amounts determined under accounting principles generally accepted in the United States of America. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, they are charged or credited to paid-in capital, undistributed net investment income or accumulated net realized gains, as appropriate, in the period that the differences arise. Accordingly, the following permanent differences as of October 31, 2010 were classified to the following accounts. The reclassifications had no effect on net assets or net asset value per share (amounts in thousands):

| | <u>Increase (Decrease) Undistributed Net Investment Income</u> | <u>Increase (Decrease) Accumulated Net Realized Gains (Losses)</u> |
|--|--|--|
| DFA International Value Portfolio III..... | \$(19) | \$19 |
| U.S. Large Cap Value Portfolio III | — | — |
| Tax-Managed U.S. Marketwide Value Portfolio II | (3) | 3 |

The tax character of dividends and distributions declared and paid during the years ended October 31, 2009 and October 31, 2010 were as follows (amounts in thousands):

| | <u>Net Investment Income and Short-Term Capital Gains</u> | <u>Long-Term Capital Gains</u> | <u>Total</u> |
|---------------------------------------|---|------------------------------------|--------------|
| DFA International Value Portfolio III | | | |
| 2009 | \$25,965 | — | \$25,965 |
| 2010 | 26,333 | — | 26,333 |
| U.S. Large Cap Value Portfolio III | | | |
| 2009 | 31,932 | — | 31,932 |
| 2010 | 31,280 | — | 31,280 |

| | <u>Net Investment Income and Short-Term Capital Gains</u> | <u>Long-Term Capital Gains</u> | <u>Total</u> |
|--|---|------------------------------------|--------------|
| Tax-Managed U.S. Marketwide Value Portfolio II | | | |
| 2009 | \$13,703 | — | \$13,703 |
| 2010 | 9,851 | — | 9,851 |

At October 31, 2010, the components of distributable earnings/(accumulated losses) were as follows (amounts in thousands):

| | <u>Undistributed Net Investment Income and Short-Term Capital Gains</u> | <u>Undistributed Long-Term Capital Gains</u> | <u>Capital Loss Carryforward</u> | <u>Total Net Distributable Earnings Accumulated (Losses)</u> |
|--|---|--|--|--|
| DFA International Value Portfolio III..... | \$3,716 | — | \$ (28,403) | \$ (24,687) |
| U.S. Large Cap Value Portfolio III | 4,842 | — | (302,899) | (298,057) |
| Tax-Managed U.S. Marketwide Value Portfolio II | 1,891 | — | (60,119) | (58,228) |

For federal income tax purposes, the Fund measures its capital loss carryforwards annually at October 31, its fiscal year end. Capital loss carryforwards may be carried forward and applied against future capital gains. As of October 31, 2010, the following Portfolios had capital loss carryforwards available to offset future realized capital gains through the indicated expiration dates (amounts in thousands):

| | <u>Expires on October 31,</u> | | <u>Total</u> |
|--|-------------------------------|-------------|--------------|
| | <u>2016</u> | <u>2017</u> | |
| DFA International Value Portfolio III..... | \$28,403 | — | \$ 28,403 |
| U.S. Large Cap Value Portfolio III | — | \$302,899 | 302,899 |
| Tax-Managed U.S. Marketwide Value Portfolio II | 6,437 | 53,682 | 60,119 |

During the year ended October 31, 2010, the following Portfolios utilized capital loss carryforwards to offset realized capital gains for federal income tax purposes (amounts in thousands).

| | |
|--|-----------|
| DFA International Value Portfolio III..... | \$ 61,292 |
| U.S. Large Cap Value Portfolio III | 124,619 |
| Tax-Managed U.S. Marketwide Value Portfolio II | 29,563 |

At April 30, 2011, the total cost and aggregate gross unrealized appreciation and (depreciation) of securities for federal income tax purposes were different from amounts reported for financial reporting purposes (amounts in thousands):

| | <u>Federal Tax Cost</u> | <u>Unrealized Appreciation</u> | <u>Unrealized (Depreciation)</u> | <u>Net Unrealized Appreciation (Depreciation)</u> |
|--|-----------------------------|------------------------------------|--------------------------------------|---|
| DFA International Value Portfolio III..... | \$ 941,121 | \$412,519 | \$(10,747) | \$401,772 |
| U.S. Large Cap Value Portfolio III | 1,392,250 | 669,973 | (5,134) | 664,839 |
| Tax-Managed U.S. Marketwide Value Portfolio II | 724,239 | 257,732 | (42,414) | 215,318 |

Accounting for Uncertainty in Income Taxes sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be in a tax return. Management has analyzed the Portfolios' tax position and has concluded that no provision for income tax is required in the Portfolios' financial statements. The Portfolios are not aware of any tax position for which it is reasonably possible that the total amounts of unrecognized

tax benefits will significantly change in the next six months. The Portfolios' federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

Effective December 31, 2008, The U.S. Large Cap Value Series, a master fund in a RIC/RIC master-feeder structure with four RIC feeders and other direct client investor(s), made a "Check-the-box" election for federal income tax purposes pursuant to Treasury Regulation §301.7701-3, to change its federal entity classification from a corporation taxable as a regulated investment company to a partnership. As a result of this election, the master fund is deemed to have distributed all of its assets and liabilities, in a taxable transaction, to its shareholders in liquidation of the master fund. Immediately thereafter, the shareholders contributed all of the distributed assets and liabilities to a newly formed partnership. The final tax year end of The U.S. Large Cap Value Series was December 30, 2008. For Federal income tax purposes, pursuant to IRC Code §336(a), the master fund recognized a loss as if the master's investment securities were sold to its shareholders and, pursuant to IRC Code §331, each of the Portfolios recognized a gain as if it liquidated its investment in the master. For tax purposes, pursuant to IRC Code §334(a), each of the Portfolios took a fair market value basis in the securities deemed received by them and a new holding period for those securities commenced on the deemed liquidation date. As a result of the transaction, The U.S. Large Cap Value Series recognized a (\$2,303,664,484) capital loss for tax year ended December 30, 2008.

On November 1, 2008, The DFA International Value Series, a master fund in a RIC/RIC master-feeder structure with five RIC feeders and other direct client investor(s), made a "Check-the-box" election for federal income tax purposes pursuant to Treasury Regulation §301.7701-3, to change its federal entity classification from a corporation taxable as a regulated investment company to a partnership. As a result of this election, the master fund is deemed to have distributed all of its assets and liabilities, in a taxable transaction, to its shareholders in liquidation of the master fund. Immediately thereafter, the shareholders contributed all of the distributed assets and liabilities to a newly formed partnership. The final tax year end of The DFA International Value Series was October 31, 2008. For Federal income tax purposes, pursuant to Internal Revenue Code §336(a), the master fund recognizes gain or loss as if the master's investment securities were sold to its shareholders and, pursuant to IRC Code §331, each of the Portfolios recognizes gain or loss as if it liquidated its investment in the master. As a result of the transaction, The DFA International Value Series recognized a (\$2,309,440,866) and (\$718,733) capital and currency loss respectively for tax year ended October 31, 2008. For tax purposes, pursuant to IRC Code §334(a), each of the Portfolios will take a fair market value basis in the securities deemed received by them and a new holding period for those securities commences on the deemed liquidation date.

F. Line of Credit:

The Fund, together with other Dimensional-advised portfolios, has entered into an amended and restated \$250 million unsecured discretionary line of credit effective July 8, 2009 with PNC Bank, an affiliate of its domestic custodian bank. Each portfolio is permitted to borrow, subject to its investment limitations, up to a maximum of \$250 million, as long as total borrowings under the line of credit do not exceed \$250 million in the aggregate. Borrowings under the line of credit are charged interest at rates agreed to by the parties at the time of borrowing. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. There is no commitment fee on the unused portion of the line of credit. The agreement for the discretionary line of credit may be terminated by either party at any time. The line of credit is scheduled to expire on June 21, 2011; however, PNC Bank is expected to extend the term of the line of credit to June 30, 2011. The Fund, together with other Dimensional-advised portfolios, is currently negotiating a new \$250 million unsecured discretionary line of credit with The Bank of New York Mellon, an affiliate of its domestic custodian bank, to replace the existing line of credit. The Fund anticipates the new line of credit will have substantially the same terms and conditions as the existing line of credit. There were no borrowings by the Portfolios under this line of credit during the six months ended April 30, 2011.

The Fund, together with other Dimensional-advised portfolios, has also entered into an additional \$500 million unsecured line of credit effective January 15, 2011 with its international custodian bank. Each portfolio is permitted to borrow, subject to its investment limitations, up to a maximum of \$500 million, as long as total borrowings under the line of credit do not exceed \$500 million in the aggregate. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. Borrowings under the line of credit are charged interest at rates agreed to by the parties at the time of borrowing. There is no commitment fee on the unused portion of the line of

credit. The agreement for the line of credit expires on January 13, 2012. There were no borrowings by the Portfolios under this line of credit during the six months ended April 30, 2011.

G. Indemnitees; Contractual Obligations:

Under the Fund’s organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of the duties to the Fund.

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties which provide general indemnification. The Fund’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund and/or its affiliates that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

H. Recently Issued Accounting Standards:

In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2010-06 “Improving Disclosures about Fair Value Measurements”. ASU No. 2010-06 amends FASB Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures, to require additional disclosures in the roll forward of activity in Level 3 fair value measurements effective for interim and annual reporting periods beginning after December 15, 2010. Management is currently evaluating the impact ASU No. 2010-06 will have on its financial statement disclosures.

In May 2011, the FASB issued ASU No. 2011-04 “Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. Generally Accepted Accounting Principles (“GAAP”) and International Financial Reporting Standards (“IFRSs”)”. ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRSs. ASU 2011-04 will require reporting entities to disclose quantitative information about the unobservable inputs used in the fair value measurements categorized within Level 3 of the fair value hierarchy. In addition, ASU 2011-04 will require reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. At this time, management is evaluating the implications of ASU No. 2011-04 and its impact on the financial statements has not been determined.

I. Other:

At April 30, 2011, the following number of shareholders held the following approximate percentages of outstanding shares of the Portfolios. One or more of the shareholders may be omnibus accounts, which typically hold shares for the benefit of several other underlying investors.

| | <u>Number of Shareholders</u> | <u>Approximate Percentage of Outstanding Shares</u> |
|--|-------------------------------|---|
| DFA International Value Portfolio III..... | 3 | 87% |
| U.S. Large Cap Value Portfolio III | 2 | 76% |
| Tax-Managed U.S. Marketwide Value Portfolio II | 2 | 92% |

The Portfolios are subject to claims and suits that arise from time to time in the ordinary course of business (for example, in The Tribune Company Bankruptcy, certain creditors have filed actions against all shareholders of The Tribune Company who tendered shares when the Tribune Company went private in 2007 in a leveraged buy-out transaction, seeking the return of all proceeds received by the shareholders). Although management currently believes that resolving claims against us, individually or in aggregate, will not have a material adverse impact on our financial position, our results of operations, or our cash flows, these matters are subject to inherent uncertainties and management’s view of these matters may change in the future.

On November 1, 2010 a class action complaint was filed in the bankruptcy case of the Tribune Company, (the “Tribune”), and subsequently additional similar class actions have been filed seeking the same recovery (the “Lawsuits”).

The defendants are The U.S. Large Cap Value Series, The Tax-Managed U.S. Marketwide Value Series and hundreds of other mutual funds, institutional investors and others who owned shares in Tribune in 2007 when it became private in a leveraged buyout transaction and who, at that time, sold their shares back to Tribune for cash in the amount of \$34 per share. The Lawsuits allege that the payment for the shares by the Tribune violated the rights of creditors and seeks to have the cash paid to shareholders returned to the Tribune's bankruptcy estate and/or various creditors of the Tribune.

Litigation counsel to The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series in the Lawsuits does not believe that it is possible, at this early stage in the proceedings, to predict with any reasonable certainty the probable outcome of the Lawsuits or quantify the ultimate exposure to The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series arising from the Lawsuits. Until The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series can do so, no reduction of the net asset value of The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series will be made relating to the Lawsuits. However, even if the plaintiffs in the Lawsuits were to obtain the full recovery they seek, the amount would be less than 1% of The U.S. Large Cap Value Series' and The Tax-Managed U.S. Marketwide Value Series' net asset value at this time.

The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series also cannot predict what its size might be at the time the cost of the Lawsuits might be quantifiable and thus potentially deducted from its net asset value. Therefore, at this time, those buying or redeeming shares of The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series will pay or receive, as the case may be, a price based on net asset values of The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series, with no adjustment relating to the Lawsuits. The attorneys' fees and costs relating to the Lawsuits will be taken as expenses by The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series as incurred and in a manner similar to any other expense incurred by The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series.

J. Subsequent Event Evaluations:

Management has evaluated the impact of all subsequent events on the Portfolios and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

DISCLOSURE OF FUND EXPENSES
(Unaudited)

The following Expense Tables are shown so that you can understand the impact of fees on your investment. All mutual funds have operating expenses. As a shareholder of the fund, you incur ongoing costs, which include costs for portfolio management, administrative services, and shareholder reports, among others. Operating expenses, legal and audit services, which are deducted from a fund's gross income, directly reduce the investment return of the fund. A fund's expenses are expressed as a percentage of its average net assets. This figure is known as the expense ratio. The following examples are intended to help you understand the ongoing costs, in dollars, of investing in the fund and to compare these costs with those of other mutual funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period.

The Expense Tables below illustrate your fund's costs in two ways.

Actual Fund Return

This section helps you to estimate the actual expenses after fee waivers that you paid over the period. The "Ending Account Value" shown is derived from the fund's actual return and "Expenses Paid During Period" reflect the dollar amount that would have been paid by an investor who started with \$1,000 in the fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period.

To do so, simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number given for your fund under the heading "Expenses Paid During Period."

Hypothetical Example for Comparison Purposes

This section is intended to help you compare your fund's costs with those of other mutual funds. The hypothetical "Ending Account Value" and "Expenses Paid During Period" are derived from the fund's actual expense ratio and an assumed 5% annual return before expenses. In this case, because the return used is not the fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% annual return. You can assess your fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the tables are meant to highlight and help you compare ongoing costs only and do not reflect any transactional costs, if applicable. The "Annualized Expense Ratio" represents the actual expenses for the six-month period indicated.

Six Months Ended April 30, 2011

EXPENSE TABLES

| | <u>Beginning Account Value 11/01/10</u> | <u>Ending Account Value 04/30/11</u> | <u>Annualized Expense Ratio*</u> | <u>Expenses Paid During Period*</u> |
|--|---|--|--|---|
| <u>The DFA International Value Series</u> | | | | |
| Actual Fund Return | \$1,000.00 | \$1,146.18 | 0.23% | \$1.22 |
| Hypothetical 5% Annual Return | \$1,000.00 | \$1,023.65 | 0.23% | \$1.15 |
| <u>The U.S. Large Cap Value Series</u> | | | | |
| Actual Fund Return | \$1,000.00 | \$1,220.56 | 0.12% | \$0.66 |

| | Beginning Account Value 11/01/10 | Ending Account Value 04/30/11 | Annualized Expense Ratio* | Expenses Paid During Period* |
|--|---|--|---------------------------------|---------------------------------------|
| <u>The Tax-Managed U.S. Marketwide Value Series</u> | | | | |
| Actual Fund Return | \$1,000.00 | \$1,223.49 | 0.22% | \$1.21 |
| Hypothetical 5% Annual Return | \$1,000.00 | \$1,023.70 | 0.22% | \$1.10 |

* Expenses are equal to the fund's annualized expense ratio for the six-month period, multiplied by the average account value over the period, multiplied by the number of days in the most recent six-month period (181), then divided by the number of days in the year (365) to reflect the six-month period.

THE DFA INVESTMENT TRUST COMPANY
DISCLOSURE OF PORTFOLIO HOLDINGS
(Unaudited)

The SEC requires that all Funds file a complete Schedule of Investments with the SEC for their first and third fiscal quarters on Form N-Q. For The DFA Investment Trust Company, this would be for the fiscal quarters ending January 31 and July 31. The Form N-Q filing must be made within 60 days of the end of the quarter. The DFA Investment Trust Company filed its most recent Form N-Q with the SEC on March 31, 2011. It is available upon request, without charge, by calling collect: (512) 306-7400 or by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, Texas 78746, or by visiting the SEC's website at <http://www.sec.gov>, or they may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the Public Reference Room).

SEC regulations permit a fund to include in its reports to shareholders a "Summary Schedule of Portfolio Holdings" in lieu of a full Schedule of Investments. The Summary Schedule of Portfolio Holdings reports the fund's 50 largest holdings in unaffiliated issuers and any investments that exceed one percent of the fund's net assets at the end of the reporting period. The amendments also require that the Summary Schedule of Portfolio Holdings identify each category of investments that are held.

The fund is required to file a complete Schedule of Investments with the SEC on Form N-CSR within ten days after mailing the annual and semi-annual reports to shareholders. It will be available upon request, without charge, by calling collect: (512) 306-7400 or by mailing a request to Dimensional Fund Advisors LP, 6300 Bee Cave Road, Building One, Austin, Texas 78746, or by visiting the SEC's website at <http://www.sec.gov>, or they may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the Public Reference Room).

PORTFOLIO HOLDINGS

The SEC requires that all Funds present their categories of portfolio holdings in a table, chart or graph format in their annual and semi-annual shareholder reports, whether or not a Schedule of Investments is utilized. The following table, which presents portfolio holdings as a percent of total investments before short-term investments and collateral for loaned securities, is provided in compliance with such requirement. The categories shown below represent broad industry sectors. Each industry sector consists of one or more specific industry classifications.

THE DFA INVESTMENT TRUST COMPANY
NOTES TO FINANCIAL STATEMENTS
(Unaudited)

A. Organization:

The DFA Investment Trust Company (the "Trust") is an open-end management investment company registered under the Investment Company Act of 1940. The Trust consists of eleven operational investment portfolios, of which The DFA International Value Series, The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series (the "Series") are presented in this section of the report.

Effective December 31, 2008, The U.S. Large Cap Value Series and on November 1, 2008, The DFA International Value Series, respectively, each a master fund in a RIC/RIC master-feeder structure, elected with the consent of their respective Holder(s) to change their U.S. federal income tax classification from that of an association taxable as a corporation to a partnership pursuant to Treasury Regulation § 301.7701-3. The change in capital structure and retroactive reclassification of the statement of changes in net assets and financial highlights for the respective funds is a result of the treatment of a partnership for book purposes. Each Series/Portfolio will maintain its books and records and present its financial statements in accordance with generally accepted accounting principles for investment partnerships.

At a regular meeting of the Board of Directors/Trustees (the "Board") on September 16, 2008, the Board voted to change the fiscal and tax year ends of the Series from November 30 to October 31.

B. Significant Accounting Policies:

The following significant accounting policies are in conformity with accounting principles generally accepted in the United States of America. Such policies are consistently followed by the Trust in preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and those differences could be material.

1. *Security Valuation:* The Series utilize a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels described below:

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Series' own assumptions in determining the fair value of investments)

Securities held by the Series (including over-the-counter securities) are valued at the last quoted sale price of the day. Securities held by the Series that are listed on Nasdaq are valued at the Nasdaq Official Closing Price ("NOCP"). If there is no last reported sale price or NOCP for the day, the Series value the securities at the mean of the most recent quoted bid and asked prices. Price information on listed securities is taken from the exchange where the security is primarily traded. Generally, securities issued by open-end investment companies are valued using their respective net asset values or public offering prices, as appropriate, for purchase orders placed at the close of the New York Stock Exchange (NYSE). These securities are generally categorized as Level 1 in the hierarchy.

Securities for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are valued in good faith at fair value in accordance with procedures adopted by the Board of Directors/Trustees. These securities are generally categorized as Level 2 in the hierarchy.

Fair value pricing may also be used if events that have a significant effect on the value of an investment (as determined in the discretion of the Investment Committee of the Advisor) occur before the net asset value is calculated. When fair value pricing is used, the prices of securities used by the Series may differ from the quoted or published prices for the same securities on their primary markets or exchanges.

The DFA International Value Series (the "International Series") will also fair value price in the circumstances described below. Generally, trading in foreign securities markets is completed each day at various times prior to the close of the NYSE. For example, trading in the Japanese securities markets is completed each day at the close of the Tokyo Stock Exchange (normally 11:00 p.m. PT), which is fourteen hours prior to the close of the NYSE (normally 1:00 p.m. PT) and the time that the net asset value of the International Series is computed. Due to the time differences between the closings of the relevant foreign securities exchanges and the time the International Series prices its shares at the close of the NYSE, the International Series will fair value its foreign investments when it is determined that the market quotations for the foreign investments are either unreliable or not readily available. The fair value prices will attempt to reflect the impact of the U.S. financial markets' perceptions and trading activities on the International Series' foreign investments since the last closing prices of the foreign investments were calculated on their primary foreign securities markets or exchanges. For these purposes, the Board of Directors/Trustees of the International Series has determined that movements in relevant indices or other appropriate market indicators, after the close of the Tokyo Stock Exchange or the London Stock Exchange, demonstrate that market quotations may be unreliable. Fair valuation of portfolio securities may occur on a daily basis. The fair value pricing by the International Series utilizes data furnished by an independent pricing service (and that data draws upon, among other information, the market values of foreign investments). The fair value prices of portfolio securities generally will be used when it is determined that the use of such prices will have a material impact on the net asset value of the International Series. When the International Series uses fair value pricing, the values assigned to the International Series' foreign investments may not be the quoted or published prices of the investments on their primary markets or exchanges.

Futures contracts held by the Series are valued using the settlement price established each day on the exchange on which they are traded. These valuations are generally categorized as Level 1 in the hierarchy.

A summary of the inputs used to value the Series' investments by each major security type, industry and/or country is disclosed at the end of the Summary Schedule of Portfolio Holdings. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Series did not have any significant transfers between Level 1 and Level 2 during the six months ended April 30, 2011.

2. *Foreign Currency Translation:* Securities and other assets and liabilities of The DFA International Value Series whose values are initially expressed in foreign currencies, are translated to U.S. dollars using the mean between the most recently quoted bid and asked prices for the U.S. dollar as quoted by generally recognized reliable sources. Dividend and interest income and certain expenses are translated to U.S. dollars at the rate of exchange on their respective accrual dates. Receivables and payables denominated in foreign currencies are marked to market daily based on daily exchange rates, and exchange gains or losses are realized upon ultimate receipt or disbursement.

The DFA International Value Series does not isolate the effect of fluctuations in foreign exchange rates from the effect of fluctuations in the market prices of securities held whether realized or unrealized.

Realized gains or losses on foreign currency transactions represent net foreign exchange gains or losses from the disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between amounts of interest, dividends and foreign withholding taxes recorded on The DFA International Value Series books and the U.S. dollar equivalent amounts actually received or paid.

3. *Deferred Compensation Plan:* Each eligible Trustee of the Trust may elect participation in the Deferred Compensation Plan (the "Plan"). Under the Plan, effective January 1, 2002, such Trustees may defer payment of all or a portion of their total fees earned as a Trustee. These deferred amounts may be treated as though such amounts had been invested in shares of the following funds: U.S. Large Cap Value Portfolio; U.S. Core Equity 1

Portfolio; U.S. Core Equity 2 Portfolio; U.S. Vector Equity Portfolio; U.S. Micro Cap Portfolio; DFA International Value Portfolio; International Core Equity Portfolio; Emerging Markets Portfolio; Emerging Markets Core Equity Portfolio; and/or DFA Two-Year Global Fixed Income Portfolio. Contributions made under the Plan and the change in unrealized appreciation (depreciation) and income are included in Directors'/Trustees' Fees & Expenses.

Each Trustee has the option to receive their distribution of proceeds in one of the following methods: lump sum; annual installments over a period of agreed upon years; or quarterly installments over a period of agreed upon years. Each Trustee shall have the right in a notice of election to defer compensation (the "Notice") to elect to defer the receipt of the Trustee's deferred compensation until a date specified by such Trustee in the Notice, which date may not be sooner than the earlier of: (i) the first business day of January following the year in which such Trustee ceases to be a member of the Board of the Fund; and (ii) five years following the effective date of the Trustee's first deferral election. If a Trustee who elects to defer fees fails to designate in the Notice a time or date as of which payment of the Trustee's deferred fee account shall commence, payment of such amount shall commence as of the first business day of January following the year in which the Trustee ceases to be a member of the Board of the Fund (unless the Trustee files an amended Notice selecting a different distribution date). As of April 30, 2011, none of the Trustees have requested or received a distribution of proceeds of a deferred fee account.

4. *Other:* Security transactions are accounted for as of the trade date. Costs used in determining realized gains and losses on the sale of investment securities are on the basis of identified cost. Dividend income and distributions to shareholders are recorded on the ex-dividend date. Distributions received on securities that represent a return of capital or capital gain are recorded as a reduction of cost of investments or as a realized gain, respectively. The Series estimate the character of distributions received that may be considered return of capital distributions. Interest income is recorded on the accrual basis. Discount and premium on securities purchased are amortized over the lives of the respective securities utilizing the effective interest method. Expenses directly attributable to a Series are directly charged. Common expenses of the Trust or Series are allocated using methods approved by the Board of Directors/Trustees, generally based on average net assets.

The DFA International Value Series may be subject to taxes imposed by countries in which it invests, with respect to its investments in issuers existing or operating in such countries. Such taxes are generally based on income earned or repatriated and capital gains realized on the sale of such investments. The DFA International Value Series accrues such taxes when the related income or capital gains are earned or throughout the holding period. Some countries require governmental approval for the repatriation of investment income, capital or the proceeds of sales of foreign investors. In addition, if there is a deterioration in a country's balance of payments or for other reasons, a country may impose temporary restrictions on foreign capital remittances abroad.

C. Investment Advisor:

Dimensional Fund Advisors LP ("Dimensional" or the "Advisor") provides investment advisory services to the Series. For the six months ended April 30, 2011, the investment advisory services fees were accrued daily and paid monthly to the Advisor based on an effective annual rate of 0.20%, 0.10% and 0.20% of average daily net assets for The DFA International Value Series, The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series, respectively.

Fees Paid to Officers and Directors/Trustees:

Certain Officers and Directors/Trustees of the Advisor are also Officers and Directors/Trustees of the Funds; however, such Officers and Directors/Trustees (with the exception of the Chief Compliance Officer ("CCO")) receive no compensation from the Trust. For the six months ended April 30, 2011, the total related amounts paid by the Trust to the CCO were \$42 (in thousands). The total related amounts paid by each of the Series are included in Other Expenses on the Statement of Operations.

D. Deferred Compensation:

At April 30, 2011, the total liability for deferred compensation to Directors/Trustees is included in Accrued Expenses and Other Liabilities on the Statement of Assets and Liabilities as follows (amounts in thousands):

| | |
|--|-------|
| The DFA International Value Series | \$199 |
| The U.S. Large Cap Value Series | 255 |
| The Tax-Managed U.S. Marketwide Value Series | 77 |

E. Purchases and Sales of Securities:

For the six months ended April 30, 2011, the Series made the following purchases and sales of investment securities, other than short-term investments and U.S. government securities (amounts in thousands):

| | <u>Purchases</u> | <u>Sales</u> |
|--|------------------|--------------|
| The DFA International Value Series | \$651,422 | \$376,563 |
| The U.S. Large Cap Value Series | 661,050 | 848,904 |
| The Tax-Managed U.S. Marketwide Value Series | 439,917 | 406,244 |

There were no purchases or sales of long-term U.S. government securities.

F. Federal Income Taxes:

No provision for federal income taxes is required since the Series are treated as partnerships for Federal income tax purposes. Any net investment income and realized and unrealized gains and losses have been deemed to have been “passed down” to their respective partners.

At April 30, 2011, the total cost and aggregate gross unrealized appreciation and (depreciation) of securities for federal income tax purposes were different from amounts reported for financial reporting purposes (amounts in thousands):

| | <u>Federal Tax Cost</u> | <u>Unrealized Appreciation</u> | <u>Unrealized (Depreciation)</u> | <u>Net Unrealized Appreciation (Depreciation)</u> |
|--|-----------------------------|------------------------------------|--------------------------------------|---|
| The DFA International Value Series | \$7,369,966 | \$2,452,488 | \$ (95,678) | \$2,356,810 |
| The U.S. Large Cap Value Series | 7,580,502 | 3,384,626 | (41,244) | 3,343,382 |
| The Tax-Managed U.S. Marketwide Value Series | 2,652,685 | 917,846 | (181,405) | 736,441 |

Accounting for Uncertainty in Income Taxes sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken on a tax return. Management has analyzed each Series’ tax positions and has concluded that no provision for income tax is required in any Series’ financial statements. No Series is aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next six months. The Series’ federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

On November 1, 2008, The DFA International Value Series, a master fund in a RIC/RIC master-feeder structure with five RIC feeders and other direct client investor(s), made a “Check-the-box” election for federal income tax purposes pursuant to Treasury Regulation §301.7701-3, to change its federal entity classification from a corporation taxable as a regulated investment company to a partnership. As a result of this election, the master fund is deemed to have distributed all of its assets and liabilities, in a taxable transaction, to its shareholders in liquidation of the master fund. Immediately thereafter, the shareholders contributed all of the distributed assets and liabilities to a newly formed partnership. The final tax year end of The DFA International Value Series was October 31, 2008. For Federal income tax purposes, pursuant to Internal Revenue Code §336(a), the master fund recognizes gain or loss as if the master’s investment securities were sold to its shareholders and, pursuant to IRC Code §331, each of the Portfolios recognizes gain or loss as if it liquidated its investment in the master. As a result of the transaction, The DFA International Value Series recognized a (\$2,309,440,866) and (\$718,733) capital and currency loss respectively for tax year ended October 31, 2008. For tax purposes, pursuant to IRC Code §334(a), each of the Portfolios will take a fair market value basis in the securities deemed received by them and a new holding period for those securities commences on the deemed liquidation date.

Effective December 31, 2008, The U.S. Large Cap Value Series, a master fund in a RIC/RIC master-feeder structure with four RIC feeders and other direct client investor(s), made a “Check-the-box” election for federal income tax purposes pursuant to Treasury Regulation §301.7701-3, to change its federal entity classification from a corporation taxable as a regulated investment company to a partnership. As a result of this election, the master fund is deemed to have distributed all of its assets and liabilities, in a taxable transaction, to its shareholders in liquidation of the master fund. Immediately thereafter, the shareholders contributed all of the distributed assets and liabilities to a newly formed partnership. The final tax year end of The U.S. Large Cap Value Series was December 30, 2008. For Federal income tax purposes, pursuant to IRC Code §336(a), the master fund recognized a loss as if the master’s investment securities were sold to its shareholders and, pursuant to IRC Code §331, each of the Portfolios recognized a gain as if it liquidated its investment in the master. For tax purposes, pursuant to IRC Code §334(a), each of the Portfolios took a fair market value basis in the securities deemed received by them and a new holding period for those securities commenced on the deemed liquidation date. As a result of the transaction, The U.S. Large Cap Value Series recognized a (\$2,303,664,484) capital loss for tax year ended December 30, 2008.

G. Financial Instruments:

In accordance with the Series’ investment objectives and policies, the Series may invest in certain financial instruments that have off-balance sheet risk in excess of the amounts recognized in the financial statements and concentrations of credit and market risk. These instruments and their significant corresponding risks are described below:

1. *Repurchase Agreements:* The Series may purchase certain U.S. Government securities subject to the counterparty’s agreement to repurchase them at an agreed upon date and price. The counterparty will be required on a daily basis to maintain the value of the collateral subject to the agreement at not less than the repurchase price (including accrued interest). The agreements are conditioned upon the collateral being deposited under the Federal Reserve book-entry system with the Trust’s custodian or a third party sub-custodian. In the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. All open repurchase agreements were entered into on April 29, 2011.

2. *Foreign Market Risks:* Investments in foreign markets may involve certain consideration and risks not typically associated with investments in the United States of America, including the possibility of future political and economic developments and the level of foreign government supervision and regulation of foreign securities markets. These markets are generally smaller, less liquid and more volatile than the major securities markets in the United States of America. Consequently, acquisition and disposition of securities by the Series may be inhibited.

Derivative Financial Instruments:

Disclosures on derivative instruments and hedging activities are intended to improve financial reporting for derivative instruments by enabling investors to understand how and why a fund uses derivatives, how derivatives are accounted for and how derivative instruments affect a fund’s results of operations and financial position. Summarized below are the specific types of derivative instruments used by the Series.

3. *Futures Contracts:* The Series may enter into futures contracts to gain market exposure on uninvested cash pending investment in securities or to maintain liquidity to pay redemptions. Upon entering into a futures contract, the Series deposits cash or pledges U.S. Government securities to a broker, equal to the minimum “initial margin” requirements of the exchange on which the contract is traded. Subsequent payments are received from or paid to the broker each day, based on the daily fluctuation in the market value of the contract. These receipts or payments are known as “variation margin” and are recorded daily by the Series as unrealized gains or losses until the contracts are closed. When the contracts are closed, the Series records a realized gain or loss, which is presented in the Statements of Operations as a net realized gain or loss on futures, equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Risks may arise upon entering into futures contracts from potential imperfect price correlations between the futures contracts and the underlying securities, from the possibility of an illiquid secondary market for these instruments and from the possibility that the Series could lose more than the initial margin requirements. The Series entering

into stock index futures are subject to equity price risk from those futures contracts. Counterparty credit risk related to exchange-traded futures is minimal because the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default.

Additional disclosure on derivative instruments is required showing a summary by primary risk exposure of the derivatives instruments' (i) location in the balance sheet and fair value at period end and (ii) the location in the Statements of Operations and the realized and change in unrealized gain or loss over the reporting period.

The following is a summary of the Series' location and value of derivative instrument holdings on the Series' Statements of Operations categorized by primary risk exposure for the six months ended April 30, 2011 (amounts in thousands):

| | <u>Location on the Statements of Operations</u> | <u>Equity Contracts</u> |
|--|---|-----------------------------|
| The U.S. Large Cap Value Series* | Net Realized Gain (Loss) on Futures | \$(12,647) |

*As of April 30, 2011, there were no futures contracts outstanding. During the six months ended April 30, 2011, the Series had limited activity in futures contracts.

H. Line of Credit:

The Trust, together with other Dimensional-advised portfolios, has entered into an amended and restated \$250 million unsecured discretionary line of credit effective July 8, 2009 with PNC Bank, an affiliate of its domestic custodian bank. Each portfolio is permitted to borrow, subject to its investment limitations, up to a maximum of \$250 million, as long as total borrowings under the line of credit do not exceed \$250 million in the aggregate. Borrowings under the line of credit are charged interest at rates agreed to by the parties at the time of borrowing. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. There is no commitment fee on the unused portion of the line of credit. The agreement for the discretionary line of credit may be terminated by either party at any time. The line of credit is scheduled to expire on June 21, 2011; however, PNC Bank is expected to extend the term of the line of credit to June 30, 2011. The Trust, together with other Dimensional-advised portfolios, is currently negotiating a new \$250 million unsecured discretionary line of credit with The Bank of New York Mellon, an affiliate of its domestic custodian bank, to replace the existing line of credit. The Trust anticipates the new line of credit will have substantially the same terms and conditions as the existing line of credit. There were no borrowings by the Series under this line of credit during the six months ended April 30, 2011.

The Trust, together with other Dimensional-advised portfolios, has also entered into an additional \$500 million unsecured line of credit effective January 15, 2010 with its international custodian bank. Each portfolio is permitted to borrow, subject to its investment limitations, up to a maximum of \$500 million, as long as total borrowings under the line of credit do not exceed \$500 million in the aggregate. Each portfolio is individually, and not jointly, liable for its particular advances under the line of credit. Borrowings under the line of credit are charged interest at rates agreed to by the parties at the time of borrowing. There is no commitment fee on the unused portion of the line of credit. The agreement for the line of credit expires on January 13, 2012.

For the six months ended April 30, 2011, borrowings under this line of credit by the Series were as follows (amounts in thousands, except percentages and days):

| | <u>Weighted Average Interest Rate</u> | <u>Weighted Average Loan Balance</u> | <u>Number of Days Outstanding*</u> | <u>Interest Expense Incurred</u> | <u>Maximum Amount Borrowed During the Period</u> |
|--|---|--|--|--|--|
| The DFA International Value Series | 0.91% | \$1,607 | 5 | — | \$ 4,688 |
| The U.S. Large Cap Value Series | 0.94% | 8,294 | 11 | \$ 2 | 15,367 |

*Number of Days Outstanding represents the total of single or consecutive days during the six months ended April 30, 2011 that each Series' available line of credit was utilized.

There were no outstanding borrowings by the Series under this line of credit as of April 30, 2011.

I. Securities Lending:

As of April 30, 2011, some of the Series had securities on loan to brokers/dealers, for which each Series received cash collateral. Each Series invests the cash collateral, as described below, and records a liability for the return of the collateral, during the period the securities are on loan. Loans of securities are expected at all times to be secured by collateral equal to at least (i) 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, (ii) 102% of the current market value of the loaned securities with respect to U.S. securities, and (iii) 105% of the current market value of the loaned securities with respect to foreign securities. However, daily market fluctuations could cause the Series' collateral to be lower or higher than the expected thresholds. If this were to occur, the collateral would be adjusted the next business day to ensure adequate collateralization. In the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. If the borrower fails to return loaned securities, and cash collateral being maintained by the borrower is insufficient to cover the value of loaned securities and provided such collateral insufficiency is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Series or, at the option of the lending agent, to replace the securities.

Subject to each Series' investment policy, the cash collateral received by the Series from securities on loan is invested in securities of the U.S. government or its agencies, repurchase agreements collateralized by securities of the U.S. government or its agencies or shares of the DFA Short Term Investment Fund. Agencies include both agency debentures and agency mortgage backed securities. In addition, each Series will be able to terminate the loan at any time and will receive reasonable interest on the loan, as well as amounts equal to any dividends, interest or other distributions on the loaned securities. However, dividend income received from loaned securities may not be eligible to be taxed at qualified dividend income rates.

J. Indemnitees; Contractual Obligations:

Under the Trust's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust.

In the normal course of business, the Trust enters into contracts that contain a variety of representations and warranties which provide general indemnification. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust and/or its affiliates that have not yet occurred. However, based on experience, the Trust expects the risk of loss to be remote.

K. Recently Issued Accounting Standards:

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06 "Improving Disclosures about Fair Value Measurements". ASU No. 2010-06 amends FASB Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures, to require additional disclosures in the roll forward of activity in Level 3 fair value measurements effective for interim and annual reporting periods beginning after December 15, 2010. Management is currently evaluating the impact ASU No. 2010-06 will have on its financial statement disclosures.

In May 2011, the FASB issued ASU No. 2011-04 "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. Generally Accepted Accounting Principles ("GAAP") and International Financial Reporting Standards ("IFRSs)". ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRSs. ASU 2011-04 will require reporting entities to disclose quantitative information about the unobservable inputs used in the fair value measurements categorized within Level 3 of the fair value hierarchy. In addition, ASU 2011-04 will require reporting entities to make disclosures about amounts and reasons for all transfers in and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. At this time, management is evaluating the implications of ASU No. 2011-04 and its impact on the financial statements has not been determined.

L. Other:

The Series are subject to claims and suits that arise from time to time in the ordinary course of business (for example, in The Tribune Company Bankruptcy, certain creditors have filed actions against all shareholders of The Tribune Company who tendered shares when the Tribune Company went private in 2007 in a leveraged buy-out transaction, seeking the return of all proceeds received by the shareholders). Although management currently believes that resolving claims against us, individually or in aggregate, will not have a material adverse impact on our financial position, our results of operations, or our cash flows, these matters are subject to inherent uncertainties and management's view of these matters may change in the future.

On November 1, 2010 a class action complaint was filed in the bankruptcy case of the Tribune Company, (the "Tribune"), and subsequently additional similar class actions have been filed seeking the same recovery (the "Lawsuits"). The defendants are The U.S. Large Cap Value Series, The Tax-Managed U.S. Marketwide Value Series and hundreds of other mutual funds, institutional investors and others who owned shares in Tribune in 2007 when it became private in a leveraged buyout transaction and who, at that time, sold their shares back to Tribune for cash in the amount of \$34 per share. The Lawsuits allege that the payment for the shares by the Tribune violated the rights of creditors and seeks to have the cash paid to shareholders returned to the Tribune's bankruptcy estate and/or various creditors of the Tribune.

Litigation counsel to The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series in the Lawsuits does not believe that it is possible, at this early stage in the proceedings, to predict with any reasonable certainty the probable outcome of the Lawsuits or quantify the ultimate exposure to The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series arising from the Lawsuits. Until The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series can do so, no reduction of the net asset value of The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series will be made relating to the Lawsuits. However, even if the plaintiffs in the Lawsuits were to obtain the full recovery they seek, the amount would be less than 1% of The U.S. Large Cap Value Series' and The Tax-Managed U.S. Marketwide Value Series' net asset value at this time.

The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series also cannot predict what its size might be at the time the cost of the Lawsuits might be quantifiable and thus potentially deducted from its net asset value. Therefore, at this time, those buying or redeeming shares of The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series will pay or receive, as the case may be, a price based on net asset values of The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series, with no adjustment relating to the Lawsuits. The attorneys' fees and costs relating to the Lawsuits will be taken as expenses by The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series as incurred and in a manner similar to any other expense incurred by The U.S. Large Cap Value Series and The Tax-Managed U.S. Marketwide Value Series.

M. Subsequent Event Evaluations:

Management has evaluated the impact of all subsequent events on the Series and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

VOTING PROXIES ON FUND PORTFOLIO SECURITIES

A description of the policies and procedures that the Trust uses in voting proxies relating to securities held in the portfolio is available without charge, upon request, by calling collect: (512) 306-7400. Information regarding how the Advisor votes these proxies is available from the EDGAR database on the SEC's website at <http://www.sec.gov> and from the Advisor's website at <http://www.dimensional.com> and reflects the twelve-month period beginning July 1st and ending June 30th.

BOARD APPROVAL OF INVESTMENT ADVISORY AGREEMENTS

At the Board meeting held on December 17, 2010 (the "Meeting"), the Board of Trustees of The DFA Investment Trust Company (the "Board") considered the continuation of the investment management agreements for each series (collectively, the "Funds") and the sub-advisory agreements for The DFA International Value Series. For the DFA International Value Series, Dimensional Fund Advisors Ltd. and DFA Australia Limited each serve as a sub-advisor. (The investment management agreements and the sub-advisory agreements are referred to as the "Advisory Agreements," and the Advisor and sub-advisors are referred to as the "Advisor.").

Prior to the Meeting, independent counsel to the Independent Board Members sent to the Advisor a request for information, which identified the information that the Independent Board Members wished to receive in order to consider the continuation of the Advisory Agreements. The Independent Board Members met with their independent counsel in advance of the Meeting to discuss the materials provided by the Advisor, the independent reports prepared by Lipper, Inc. (the "Lipper Reports"), and issues related to the continuation of the Advisory Agreements. Also in advance of the Meeting, management provided additional materials to address and respond to questions that the Independent Board Members posed after their review and analysis of materials provided by the Advisor and the Lipper Reports.

At the Meeting, the Board considered a number of factors when considering the continuation of each Advisory Agreement for a Fund, including: (i) the nature, extent and quality of services provided by the Advisor to each Fund; (ii) the performance of each Fund and the Advisor; (iii) the fees and expenses borne by each Fund; (iv) the profitability realized by the Advisor from the relationship with each Fund; and (v) whether economies of scale are realized by the Advisor with respect to each Fund as it grows larger, and the extent to which this is reflected in the level of the advisory fee charged.

When considering the nature and quality of the services provided by the Advisor to a Fund, the Board reviewed: (a) the scope and depth of the Advisor's organization; (b) the experience and expertise of its investment professionals currently providing management services to the Fund; and (c) the Advisor's investment advisory capabilities. The Board evaluated the Advisor's portfolio management process and discussed the unique features of the Advisor's investment approach. The Board also considered the nature and character of non-investment management services provided by the Advisor. After analyzing the caliber of services provided by the Advisor to each Fund, both quantitatively and qualitatively, including the impact of these services on investment performance, the Board concluded that the nature, extent and quality of services provided to each Fund were consistent with the operational requirements of the Fund and met the needs of the shareholders of the Fund.

In considering the performance of each Fund, the Board analyzed the Lipper Reports, which compared the performance of each Fund with other funds in its respective peer group and peer universe. The Board also reviewed the performance analysis prepared by the Advisor, which presented the performance of each Fund and its benchmark index, over multiple performance periods, along with the Advisor's explanation of the performance. The Board concluded that the Advisor's explanations provided a sound basis for understanding the comparative performance of the Funds. The Board noted that the Advisor's investment style and methodologies in managing the Funds are not designed to track traditional indexes. As a result, it is expected that certain Funds will underperform their Lipper-designated peer funds and that reporting results will diverge from market indexes, while other Funds may outperform their Lipper-designated peer funds and market indexes for the same periods. The Board determined, among other things, that the performance of each Fund was reasonable as compared with relevant performance standards.

When considering the fees and expenses borne by each Fund, and considering the reasonableness of the management fees paid to the Advisor in light of the services provided to the Fund and any additional benefits received by the Advisor in connection with providing such services, the Board compared the fees charged by the Advisor to the Fund to the fees charged to the funds in its peer group for comparable services as provided in the Lipper Reports. The Board concluded that the advisory fees and total expenses of each Fund over various periods

were favorable in relation to those of its peer funds, and that the advisory fees were fair, both on an absolute basis and in comparison with the fees of other funds identified in the peer groups and the industry at large.

The Board considered the profitability of each Fund to the Advisor by reviewing the profitability analysis provided by the Advisor, including information about its fee revenues and income. The Board reviewed the overall profitability of the Advisor, and the compensation that it received for providing services to each Fund, including administrative fees paid by the feeder portfolios. The Board considered the profitability to the Advisor of managing the Funds and other “non-1940 Act registered” investment vehicles. Upon closely examining the Advisor’s profitability, the Board concluded, among other things, that it was reasonable.

The Board also discussed whether economies of scale are realized by the Advisor with respect to each Fund as it grows larger, and the extent to which this is reflected in the level of advisory fees charged. For several reasons, the Board concluded that economies of scale and the reflection of such economies of scale in the level of advisory fees charged were inapplicable to each Fund at the present time, due to the current level of fees and expenses and the profitability of the Fund.

After full consideration of the factors discussed above, with no single factor identified as being of paramount importance, the Board, including the Independent Board Members, with the assistance of independent counsel, concluded that the continuation of the Advisory Agreement for each Fund was in the best interests of the Fund and its shareholders.
